

STATE OF ILLINOIS  
92ND GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

114th Legislative Day

April 4, 2002

Speaker Madigan: "The House shall come to order. The Members shall be in their chairs. We shall be led in prayer today by the Reverend Walter Thyng, of the First Congregational Church in Huntley, Illinois Reverend Thyng is the guest of Representative Jack Franks. The guests in the gallery may wish to rise and join us for the invocation and the Pledge of Allegiance."

Reverend Thyng: "Mr. Speaker and distinguished guests and honorable Representatives of the people of the State of Illinois, let us come together in prayer. Oh, Holy One, who is known by many names yet neither bound nor limited by any of them, we come before You in humility knowing that all authority is a trust from You. We gather under the shadow of escalating conflict in the Middle East, of a draining struggle with terrorism, of an increasingly politicized government. We seek the wisdom of the ages that allows us, indeed calls us, to look beyond the self-serving and the expedient, that we might discharge our responsibilities with compassion and discernment. We praise You, who author of all bounty, for the wealth of this great state, for its rich soil, powerful industries, expansive cities and tiny towns. But most especially, we praise You for its people, who are its true wealth. We thank You for the great reservoir of skill and talent they offer. We weep for those whose divinely-given gifts are stunted and hidden by circumstance, bigotry and the predations of the greedy. Grant, we ask, clarity of vision and integrity of spirit, that the deliberations of this distinguished Body might be undergirded by a deep commitment to the well-being of those whom they serve. Send Your special blessing upon these public servants, that through their endeavor at law and order, justice and peace

may prevail. Preserve them from calamity, conspiracy and corruption. Make them strong and great in the fear of all that is holy and righteous. Make them courageous in the defense of true liberty, make them bold in the pursuit of the common good. God of god, king of kings, ruler of ruler, pour Your divine grace into the being of all those who are in authority, especially these Legislators, the Governor of this state and the President of our beloved United States of America. In the Name of all that is sacred and holy. Amen."

Speaker Madigan: "We shall be led in the Pledge of Allegiance by Representative Tom Johnson."

Johnson - et al: "I pledge allegiance to the flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all."

Speaker Madigan: "Roll Call for Attendance. Representative Currie."

Currie: "Thank you, Speaker. I'm happy to report that the record today should reflect no excused absences among House Democrats."

Speaker Madigan: "Mr. Bost."

Bost: "Good morning, Mr. Speaker. The Republicans are all here, present and ready to do the work of the people."

Speaker Madigan: "Good. The Clerk shall take the record. There being 118 Members responding to the Attendance Roll Call, there is a quorum present. Mr. Clerk."

Clerk Rossi: "Committee Reports. Representative Feigenholtz, Chairperson from the Committee on Human Services, to which the following measures were referred, action taken on Wednesday, April 3, 2002, reported the same back with the following recommendations: 'be adopted' Floor Amendment #2

to House Bill 4183, and Floor Amendment #1 to House Bill 5567."

Speaker Madigan: "Mr. Johnson."

Johnson: "Yes, a point of a personal privilege, Speaker."

Speaker Madigan: "State your point."

Johnson: "Can I have the attention of the Body here for a moment?

You know, we down here are oftentimes get blasted in media and everything else and we're these politicians and we don't always do maybe what's right for the people and so on. I just wanna thank this chamber, I've been here for 10 years now, and for 10 years and really, even an administration or two before then. Many of you know that my home community in West Chicago was plagued with a deposit of thorium radioactive waste. And you know this chamber and this Body as well as the Senate, we began work on this many, many years ago. And in 1995 we finally got the final approvals from this Body and others to really compel the cleanup of that radioactive waste in West Chicago. And I think that it's important that we realize that oftentimes we don't see change immediately, but through diligence, hard work, long... long-term commitments on both sides of this aisle to this problem, this problem is now almost finished in West Chicago and I wanted to thank you before I leave here. And just to let you know the magnitude of this, this was the largest cleanup of its type in the United States. And with the cooperation of the State of Illinois, the General Assembly, Kerr-McGee, over 112,000 cubic yards of radioactive material have been removed from my community and sent to the proper storage facility in Utah. Now, that is a lot of cubic yards of radioactive material. It involved the cleanup of over 700 individual homesites in the community where people were

living and playing in this waste. And that, in and of itself, I mean everything from excavating under garages, under houses and so on. And I think that we need to remind ourselves in here that you know as much as the politics and everything else plays out, the common good is served by what we do and I just wanna thank all of you in here who have stayed with this project over the years. So, thank you."

Clerk Rossi: "Committee Reports. Representative McCarthy, Chairperson from the Committee on Child Support Enforcement, to which the following measure was referred, action taken on Thursday, April 4, 2002, reported the same back with the following recommendation: 'be adopted' Floor Amendment #2 to House Bill 5140."

Speaker Madigan: "Mr. Beaubien. Did you wish to call House Bill 4531? Mr. Clerk, read the Bill."

Clerk Rossi: "House Bill 4531, a Bill for Act in relation to unemployment insurance. Third Reading of this House Bill."

Speaker Madigan: "Mr. Beaubien."

Beaubien: "Yes, thank you, Mr. Speaker. This is a Bill we discussed yesterday on the floor when the Amendment was passed. It's a requirement of the Federal Government that our State Law and the Federal Law become in synch. In this action it only affects one individual in the state where we have to cover them with unemployment insurance because they are employed by an Indian tribe out of the State of Illinois. And that individual was not an Indian. It's one of those cases of a perfect example of what's wrong with Federal Government. We have to pass a law to cover one individual, but essentially, we have no option since the... the cost that we would lose on our federal funding would be astronomical, so I feel we have no choice but to pass this

Bill and I urge your support."

Speaker Madigan: "The Gentleman moves for the passage of the Bill. The Chair recognizes Mr. Parke."

Parke: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Madigan: "Sponsor yields."

Parke: "Thank you. Representative, again this does not give any standing or status to any Indian tribes in the State of Illinois. This is strictly... to handle a... an employee from an Indian tribe and from another state doing business in Illinois and to comply with the Federal... Federal Law we have to pass this."

Beaubien: "That's correct. This Bill is strictly a UI Bill. It applies only to that particular point in the statute. It has no recognition to the tribe and I believe all of you received a letter from I.D.E.S. specifically saying that is not the case. It does not recognize Indian tribes."

Parke: "Thank you."

Beaubien: "Thank you."

Speaker Madigan: "The Gentleman moves for the passage of the Bill. Those in favor signify by voting 'yes'; those opposed by voting 'no'. Have all voted who wish? Have all voted who wish? Has Mr. Ron Stephens voted? Has Mr. Ron Stephens voted? The Clerk shall take the record. On this question, there are 113 people voting 'yes', 5 people voting 'no'. This Bill, having received a Constitutional Majority, is hereby declared passed. House Bill 4466. Mr. Clerk, what is the status of that Bill?"

Clerk Rossi: "House Bill 4466 has been read a second time, previously. No Committee Amendments. No Floor Amendments. No Motions filed."

Speaker Madigan: "Put the Bill on the Order of Third Reading. Representative Currie. Barbara Currie, do you wish to call

House Bill 5734? The Lady indicates she does not wish to call the Bill. Representative Currie. Mr. Clerk, House Bill 5734. Read the Bill."

Clerk Rossi: "House Bill 5734, a Bill for an Act in relation to education. Third Reading of this House Bill."

Currie: "Thank you, Speaker and Members of the House. This measure contains two items, one is to insure that the City of Chicago Public Schools can move to the property tax cap. They have not been able to do so because of the serious disruptions in the school system 20 years ago in the creation of the School Finance Authority. It also creates a solution for the problem of the almost bankrupt Round Lake Beach School District. That district is hovering on the brink of bankruptcy. Should it go bankrupt there would be significant cost to the state. This creates a finance authority for that school district that will have the responsibility to stave off the fiscal distress the school system now faces and insure that the contracts and the facility's decisions that are made are fiscally responsible. That measure has the support of the State Board of Education, as well as the Illinois Education Association. I'd be happy to answer your questions and would appreciate your support for this Bill."

Speaker Madigan: "The Lady moves for the passage of the Bill. The Chair recognizes Representative Cowlshaw."

Cowlshaw: "Thank you very much, Mr. Speaker, Ladies and Gentlemen of the House. I want to thank Representative Currie for attempting to do what is probably the only option that is really practical and available to us as far as the Round Lake School District is concerned. That is a situation that is almost incredible and certainly one that no one of us in this chamber would want a school district

back home that we represent to be in the extremely difficult situation that they are in in Round Lake. One of the things that's most important about that situation, my colleagues, is that Round Lake because it's located in Lake County is somehow generally considered to be a wealthy area and it is not. The children who go to school there are generally from a background of poverty. They need our help. The other half of this Bill has to do with the Chicago Public Schools only. It does not apply elsewhere in the state and is something that we have already discussed even last year and certainly has merit. And so, Mr. Speaker, I want to thank Representative Currie for her willingness to help out that Round Lake School District which desperately needs our help. I urge a 'yes' vote on this Bill. Thank you."

Speaker Madigan: "Mr. Parke."

Parke: "Mr. Speaker, will the Sponsor yield?"

Speaker Madigan: "Sponsor yields."

Parke: "Representative Currie, is it my understanding that this piece of legislation increases taxes to the citizens of the City of Chicago by the Chicago City Council without referendum?"

Currie: "It does and it may also have the same affect in Round Lake Beach School District."

Parke: "Okay. And is there a limit on how much the Chicago City Council can raise the taxpayers of the City of Chicago without referendum?"

Currie: "Yes, it is limited by the property tax cap under the Property Tax Extension Limitation Law."

Parke: "All right. To the Bill. Ladies and Gentlemen, there is always a need for additional revenue. But I've always felt that if you want to raise taxes that you should go to the

STATE OF ILLINOIS

HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

114th Legislative Day

voter and ask them for permission to do it, not come down here and have us circumvent the will of the people. Ladies and Gentlemen, I think you need to pay close attention to this. And the Chicago Legislators need to understand what they're voting for on this legislation. You're voting to allow the Chicago City Council to raise taxes on your taxpayers, your citizens, your constituents, without referendum, simply to the amount that the tax cap allows. I think, as it ought to be, if you want additional revenue you make the case to the people and then you take it to them in a vote. You ought not to have the Legislature circumvent the will of the people of Chicago by simply saying, it is okay, fine, we'll give you the right to do this. This is... this is something, I think is not appropriate for us to be doing. I understand and I sympathize with my colleague and... who serves Round Lake. I wish there was an answer for that problem that was much easier than amending it on this Bill. But those of you that are concerned about taxes being labeled, voting for a tax increase, this is a tax increase, there's no doubt. They would not have put that in there and so I have a serious concern. This is a... this has something that has traditionally been left up to people. You know in my area we pass in the northwest suburbs more than... more than more time than not more than half of the referendums. Because what we do is that we go to the people and we require the taxing body to tell their story, to convince the voters of why this referendum is necessary. It takes money, it takes time. But what it does, is it allows those taxpayers, those people who get frustrated on not being brought into the process. They're having taxation without representation. I mean, this is a rallying cry of our

STATE OF ILLINOIS  
92ND GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

114th Legislative Day

April 4, 2002

founding fathers to say that we ought not to be taxed unless we give the permission to people to tax us. Then what'll we do, you come down here to Springfield, you circumvent the will of the people of that taxing body by simply saying, we know better, this is something that we don't need to have any input from the voter. We, in the State of Illinois, will just simply circumvent their rights as citizens and tax them without any input. Now, we wonder why so many people are so cynical with the Legislature and with government as a whole. This is a prime example. If you can't get what you want by going to the people, you circumvent it. You find another means. You come down to the General Assembly and you ask them to circumvent the rights of the people of the City of Chicago. Ladies and Gentlemen, you need to think long and hard on this issue. This is not something that I think we can do just out of hand. This is something that ought to have forethought. And if you want to give up the right of people then without having the right to increase their opportunity to vote for it, then vote for this. But, if you want to give them the right to have input into the process so that they don't become cynical, continue to be cynical and not even vote because they figure what's the sense of voting, people are going to do what they want anyway regardless of what the will of the people are. I would ask this Body to vote 'no' and hopefully, that the Representative who sponsors this legislation will figure out another way of doing it. And that Representative Beaubien can figure out another way of solving his problem with Round Lake schools which all of us in this state sympathize with him. But this is not the vehicle. And I would ask the Body to vote 'no'."

Speaker Hartke: "Representative Hartke in the Chair.

Representative Morrow, discussion on House Bill 5734."

Morrow: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. I rise in support of House Bill 5734. You know, it's ironic that comments were made against this Bill earlier. But I want to remind the Members of the Body that several years ago we subsidized a company to move up into that person's district. They didn't have a problem taking that money, but then they laid off thousands of the citizens and taxpayers of this state and no one... and when the state asks one of our Members put in a Bill to ask that this company reimburse us for the subsidy that we gave them to move up into a certain area of the State of Illinois, the same Gentleman rose up and said, oh, we shouldn't take money from a company even though they laid off our taxpayers. But that's not why I'm rising in support of 5734. I have schools in my district that are in need of capital improvement. And the only thing I'm going to say about this Bill and my comments are gonna be directed to the Board of Ed which is here today, Arne Duncan and Michael Scott, is that if this Bill passes that you sit down with the Members of this General Assembly... the Members of this General Assembly so we can discuss where this money's going to be spent. We shouldn't build new schools when we've got crumbling schools that exist right now. So, I urge the Members of this Body to put 'green' votes on House Bill 5734."

Speaker Hartke: "The Chair recognizes Representative Beaubien."

Beaubien: "Thank you very much. Yes. I just want to thank everyone for their patience over the last couple of years when we've dealt with the issue of Round Lake. I want to thank the IEA for cooperating, the Illinois State Board of Education, the consortium districts with Henshaw and

Culbertson and the voluntary oversight panel that made the recommendations that we arrive here. I would like to represent to all of you that the alternative of dissolution or bankruptcy would be absolutely disastrous on not only the local school but surrounding schools and the burden would end up falling on the state. As this Bill is structured it only applies to the Round Lake School District as far as my part of the Bill is concerned and it absolutely has no financial burden on the State of Illinois as opposed to dissolution where it would become a burden to us. Thank you very much and I urge your 'aye' vote."

Speaker Hartke: "The Chair recognizes Representative Lang."

Lang: "Thank you, Mr. Speaker. I rise in support of House Bill 5734. You know, this is one of those Bills where our philosophies get tested. And I think some of us on this floor really don't have a philosophy. We've got some people who are consistently talking to us about local control for schools, local control for schools, and then when it comes to local control for schools, people stand up on this floor and they talk about, well, wait a minute, the dreaded 't' word is involved. This is a classic Bill for local control for schools. This tells the Chicago City Council you have the power to control your own schools. You want to talk about accountability to the taxpayers? The people in the City of Chicago who will make this decision are accountable to taxpayers. They will make a determination how to run their schools. We've got all kinds of people who want to talk on this floor about how they support schools. They want to talk about how local control is so important to them. But when it really comes down to it, there is no philosophy about local control. What some of the folks on this floor have is a philosophy

STATE OF ILLINOIS  
92ND GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

114th Legislative Day

that whatever works politically today, this minute, on this Bill, is what they're going to throw before us. This is a good Bill that allows the Chicago City Council to do what they need to do to fix crumbling schools in their city. It helps Mr. Beaubien in his district with a school that's got a problem. This is a Bill that is for local control. And so, those of you that talk consistently about local control who want to stand up today and be against this Bill or are going to in a few minutes vote 'no' on this Bill, remember that you are sent here to have a real philosophy of government. You must have some sort of intestinal fortitude somewhere in your legislative career to stand up and say things on the House Floor and really mean them. If you mean you're for local control for schools, then you must vote for this Bill."

Speaker Hartke: "Further discussion? Chair recognizes Representative Erwin."

Erwin: "Thank you, Speaker. Not to belabor the point, but I, too, rise in strong support of House Bill 5734. Ya know, I think it's a little disingenuous for us to stand here and talk about taxes this and taxes that. The fact of the matter is that if we wanted to really have a low tax rate we could close the public schools, we could not provide educational services. I'm confident that the previous speaker on the other side of the aisle didn't really intend that, because he knows that in suburban Cook County which he represents, the voters, indeed, do care about the quality of their public education. And as one who and, in fact, the only one of the Chicago delegation in either chamber that voted for Chicago School reform, I for one don't want to see those initiatives and efforts stalled. And I don't think that the Republican side of the aisle

STATE OF ILLINOIS  
92ND GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

114th Legislative Day

that initiated that Bill ought to want that either. We need to continue the progress, as Representative Lang said, this is local control. You know also, that local governments, municipalities, have no powers on their own. They all come from the state. So to say that let the voters decide is, you know, we forgot to take Government 101, folks. We wouldn't have this Bill if you didn't have to come down here and change the statute. Municipalities have no independent authority or power under our State Constitution or the Federal Constitution. So they have to come down. I, too, voted for property tax caps. They have worked. But, Ladies and Gentlemen, if we care about the economic health of this state, if we care about improving the business climate, the only way we're going to do that is with further support for quality public education. That is what this vote is for. It is for local control and for allowing an improvement in educational quality in this state, which is the only way we're going to improve the economic health of the state. So, I urge an 'aye' vote."

Speaker Hartke: "Further discussion? Chair recognizes Representative Giles."

Giles: "Thank you, Mr. Speaker and Ladies and Gentlemen of the House. I just simply want to rise in support of this piece of legislation and also to echo some of the same sentiments of my colleague who just spoke previously. You know, as a State Legislator, and I'm sure many of you... we've just come through tough campaigns and many of us we often on the campaign trail, have always asked about... questioned about education, about funding for education. We're always asking about funding for programs and capital improvements. And when you visit your schools and your school districts, especially in my district, you see schools that are

STATE OF ILLINOIS  
92ND GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

114th Legislative Day

April 4, 2002

crumbling. You see schools that need major repairs. You really see schools that really need the whole overhaul and new schools. And we know what that breeds, that breeds an environment of good educational learning. Now, this piece of legislation and I think my colleague made the statement about local control and it is a local control issue. Here, we're allowing a municipality to be able to choose and be able to direct its own path as far as raising resources to do the thing that we need to sustain our schools. You know, some years back when I first got here in the Legislature, this Body made a vote to give the responsibility to school reform, responsibility to the City of Chicago, to Mayor Daley. And so, I believe with that we have done all that we could to revitalize and to do the things to bring education forward in our public schools in the City of Chicago. But there comes a time that where we say the rubber meets the road and you have to put your money where your mouth is. And what this legislation does is allow a municipality to be able to do that, to have their own destiny, if you will, to be able to raise the resources to provide new schools, or projects, or repairs to their schools to improve the school system. Now, you know, I don't know about any of you all, but I haven't seen any monies or resources fall from the sky here. And I know there are some around but it has not fall from the sky into the City of Chicago Public Schools or any public schools in the downstate communities. And so, this is just one area in which every Legislator must look at their heart and say we're here for... for really for trying to give our kids the best educational opportunities in the State of Illinois. And that's the way I view this piece of legislation and I think we should all put 'aye' votes on

HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

114th Legislative Day

it. If there's other districts that want to allow... if there are other municipalities want their municipality to be able to control their destiny, then I will put the first 'green' vote on that, as well. Thank you very much."

Speaker Hartke: "Further discussion? Chair recognizes Representative Jerry Mitchell."

Mitchell, J.: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Hartke: "Sponsor will yield."

Mitchell, J.: "Representative Currie, I'm looking at my analysis and it says to me that this money that the board of education can basically recommend but then has to... it then has to go to the city council, the City of Chicago..."

Currie: "Absolutely."

Mitchell, J.: "...for approvment... approval."

Currie: "It cannot happen unless the city council, the aldermen of the City of Chicago vote for it to happen."

Mitchell, J.: "But now the last that I knew from Politics 101 is that the school board in the City of Chicago, are they elected officials?"

Currie: "No, they are not. But, the aldermen certainly are."

Mitchell, J.: "They're appointed by the Mayor of Chicago?"

Currie: "That's right."

Mitchell, J.: "Okay. So, they make the recommendation to the city council, who are elected officials."

Currie: "That is correct."

Mitchell, J.: "So, the City of Chicago will have an opportunity..."

Currie: "Absolutely."

Mitchell, J.: "...to change the city council if the city council doesn't listen to the people of Chicago?"

Currie: "That's absolutely right. We call that local control and we call that the opportunity for the voters to choose the

people who will represent their best interests."

Mitchell, J.: "Now, this may be a different role for me but I tend to agree. I have a problem sometimes with this Body and you've often heard me probably get up and rant and rave about the fact that... say as Springfield always thinks that they have the answer and that one size fits all, and that's seldom true. I can remember with a couple of my Representatives on this side of the aisle passionately debating tax caps for downstate Illinois, whether that was a good thing or a bad thing. We couldn't even agree ourselves but most of us agreed that it was not a good thing for downstate Illinois because we have a whole different structure. But we passed the legislation and we passed the legislation that says it's up to the county boards downstate to determine whether or not they want to put this on the ballot. To this day, there are counties that voted it down, because they care about kids. There are counties that voted it up and there are counties that have never taken a vote on tax caps. So, if we think we've got all the answers here in Springfield for po... people back home, maybe we haven't spent enough time back home listening to people. Now, I don't often vote for something that may be devised as a... as taxation without representation, but I don't think that's what this is. I think the representatives of the City of Chicago are going to have to think long and hard about whether or not they should raise taxes to help their crumbling schools. Folks, we don't have the answers anymore. I've worked with Representative Currie and I've worked with my people on my side, we don't have the money to help out this time. If the local folks want to do it, it's their determination. If they want to take the heat for it or if they want the

merits for it, that's fine. And then on top of that, you've allowed Round Lake to come on, a district that is in as bad a shape as some of our districts close to St. Louis, that needed help from the State of Illinois. Now, that's a way we can help. I don't know how many of my downstaters will feel comfortable voting for this kind of a Bill, but I, for one, think that this one has a lot of merit and I'm gonna join you with a 'yes' vote. Thank you, Representative."

Currie: "Thank you."

Speaker Hartke: "Further discussion? Representative Hoeft."

Hoeft: "Thank you, Mr. Speaker. Sponsor yield?"

Speaker Hartke: "Sponsor will yield."

Hoeft: "Probably, and I don't know the history of this completely, but about 25 to 30 years ago the State of Illinois passed something called the Life Health Safety Levy for the school districts around the State of Illinois. We were concerned with the fact that our buildings were crumbling and we needed to protect the children within those buildings, the teachers, and other staff members. Does the City of Chicago have this same capacity?"

Currie: "No, Chicago does not have a separate levy for safety and health."

Hoeft: "So, this is simply giving to the City of Chicago the same power and ability via a different mechanism to get the decision made, but all we're doing here is saying what we have for the rest of the schools in the State of Illinois we should also have for the City of Chicago. Is this not..."

Currie: "Correct."

Hoeft: "...correct?"

Currie: "Correct. Absolutely."

Hoeft: "I don't mean to bring this up because it's a very strong negative, but the worst disaster in the United States' history for the loss of life in the public... in the schools occurred in the City of Chicago. And this is basically saying, folks, let's not do it again. Let's make sure that our staff, our children are protected. I taught in Chicago and two years ago went back to that building and went into the thing and started looking as I would as a regional superintendent, at the safety issues. I was sickened, absolutely sickened by what I saw. If we don't have the ability as a state to protect our children in their learning environment, it's a sad state. The second part of this is Round Lake. We've known the Round Lake problem for years. We have just simply stepped back. We have to address our problems, folks, or we have no future. Vote 'yes'."

Speaker Hartke: "Further discussion and final person seeking recognition, Representative Mulligan."

Mulligan: "Thank you, Mr. Speaker. Will the Sponsor yield? Representative, I noticed from our analysis that the Chicago City Council has to take action on this within 60 days?"

Currie: "Pardon me?"

Mulligan: "The Chicago City Council has to take action within 60 days?"

Currie: "I believe that's right, but the reality is the Chicago City Council has to take action before anything can happen. That is to say..."

Mulligan: "And will that... Would that action be..."

Currie: "If the council does not take a vote, then there is no opportunity for the levying of this capital construction fund."

Mulligan: "So basically, they would be responsible for the actual voting in of this levy?"

Currie: "Correct."

Mulligan: "And would the levy be... once they vote in 60 days, would they have to do it every year or would this one vote take care of it for the rest of the time?"

Currie: "As I understand it, it would be one vote, because it would be a capital construction fund that would be then in position to be levied in ensuing years, so as to pay off the bonds."

Mulligan: "I have... I just wanted a few questions because I'd like to support this."

Currie: "I would like you to, Representative."

Mulligan: "The other issue we have which I would hope that additional monies in this area would not allow the city to not investigate or to ask their Cook County Commissioners to investigate. As you know, all the schools in the Cook County area are having several problems with tax dollars, one of them being the amount of money that the Cook County Treasurer is taking back out of their budgets after they've already been passed for past certificates of error and things like that. And we would like an audit of that. And I would hope that the city would then also request their commissioners, Cook County Commissioners, to do an audit because this is really hurting Cook County Schools greatly."

Currie: "I certainly will talk to them about that issue."

Mulligan: "All right. Because I would certainly like to support this. I think that the Chicago Schools could use help in this area and I would certainly like to support you in this."

Currie: "Thanks."

It eliminates the 20 percent restriction for transfers between nonrestricted funds. And does not... does not impact the tax cap limitation in any way, shape, or form. Speaker Hartke: "Representative Black."

Black: "Thank you very much, Mr. Speaker and Ladies and Gentlemen of the House. This Bill was amended yesterday. I believe with Floor Amendment #2. The Amendment becomes the Bill. I have one part of that Amendment that... that came from a incident in my hometown of Danville in October when a white powder fell out of an envelope while the school secretary at an elementary school was opening the mail. It was deemed necessary by emergency response personnel to seal the school, the principal's office, evacuate the school and send the material to the Illinois State Police lab, who expedited by the way and I congratulate the State Police, they worked long hours to run a test on that material since it took place in an elementary school. And three days later it was found that it was not an anthrax or any bio-terrorism threat and the school reopened. When the Danville schools asked for a school aid wavier for such closure, the state board said there isn't anything in the School Code that will allow us to do that. They... they... they would suggest that you use a snow day. My district didn't think that was the way to handle bio-terrorism threats after September 11. So what the first part of this Bill does, is to simply say that if a school is closed because of an emergency procedure for a bio-terrorism threat for more than a half a day they can still request state aid for that attendance day. The second part of the Amendment is... drafted by Representative Holbrook and I think he explained it yesterday, and can certainly do so

We... we have a grant that's currently kindergarten thru sixth grade. This a new appropriation that would take those students that need the help in reading from seventh thru twelfth. This is also subject to that appropriation. At first, I wasn't going to bring this Bill back, but now as I read the news and I'm getting more and more information on President Bush's initiatives in the regards to reading I'm finding... initiatives that President Bush has... has also let us know that if a program is in fact intact, he's going to start looking at taking a percentage of his grant money and giving it to high school students who are not reading on their level. So, I'm moving this Bill in hopes that those dollars would be coming from the Federal Government thru grants and we in the State of Illinois would have a program that's set up to utilize those monies to help kids in reading."

come up language that has tightened up the requirements of the Bill, making sure that there can only be a real small move involved here and it can't go really anywhere else but in the jurisdiction it's license for. So, that's cleared up and I would ask for your support."

Speaker Hartke: "Is there any discussion? The Chair recognizes Representative Righter."

Righter: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Hartke: "Sponsor will yield."

Righter: "Representative Brunsvold, you and I spoke just a little bit ago about the Bill, and I've had some people come up talk to me about the Bill and ask some questions. It's my understanding that the latest Amendment which was attached yesterday came directly from Rules out onto the floor. Is that right?"

Brunsvold: "Yes, Representative it did."

Righter: "Okay."

Brunsvold: "Because it contained pretty much the same language, just tightening it up a little bit."

Righter: "Okay. Now, the language as it's presented now in the Bill, would that apply to any other boat other than the Rock Island boat?"

Brunsvold: "It applies to... Amendment would... would state the Mississippi Riverboat so. If another boat, the Alton boat or the East St. Louis boat was involved they could prob... possibly do this, too. But it would only affect the three river boats on the Mississippi. The other boats really have this language or can do this already."

Righter: "How can they do it already and the three that you're referring to can't?"

Brunsvold: "Well, because the original language in the Bill said 'on the Mississippi River'."

Righter: "Okay."

Brunsvold: "And the gaming commission's said that they didn't think they had the jurisdiction to allow them to move around the corner onto a backwater and so they rejected the application to move, and this language is simply to address that and change it so the gaming board would have that jurisdiction."

Righter: "Okay. Does this language in any way change or increase the number of gaming positions that a boat can put... can have on itself?"

Brunsvold: "All the boats, all ten of the boat licensees have 12 hundred spots allowable, and that's... that's been in statute since we passed the original Bill back in the 80's."

Righter: "And you're not trying to change that for the Rock Island boat or any of the other boats?"

Brunsvold: "No... No... there all... there all licensed for 12 hundred spots."

Righter: "Okay. All right. Representative Brunsvold, thank you very much. Thank you, Mr. Speaker."

Black: "Right... right."

Brunsvold: "If... if they wanted... would like to alter their position a little bit, because maybe they... the Alton City would wanna make a better location, they could do it, within a very, very small range. Still has to stay in the licensed area. So Rock Island boat or the Alton boat or East St.... they they could not move to, well, Chicago for example or any place like that."

Black: "Well, they'd still have to stay on the Mississippi."

Brunsvold: "Oh, yeah. It'd have to stay on the Mississippi."

Black: "Okay."

Brunsvold: "The definition of the 'Mississippi' has been adjusted a little bit so they can go into a backwater or a... or a situation like that."

Black: "But the... the definition hasn't been adjusted so that it could read, Lake Michigan, I assume?"

Brunsvold: "No... no, not at all."

Black: "All right. Okay."

Brunsvold: "Your staff drew a very tight Amendment there, so it's located in almost exactly the same place, very, very small parameters."

Black: "But... but would this enable that boat to move, say, every three or four months?"

Brunsvold: "No, because the process of going to the gaming board and getting the okay to do... this still has to go through the process of being... being okayed by the gaming board and that's not gonna happen, Bill."

Let me say that this in the 1980's when we had a lot closures of plants in the Quad Cities, we lost 22 thousand jobs... 22 thousand agriculture machining jobs at Farmall plant, and the Case plant, the John Deer plants there. And in the late 80's we passed this gaming Bill and this boat has done a lot to help with the economic situation in the City of Rock Island. And that's all this was for and that's what the original Bill was for was to make it better for the river towns that have had economic problems. This was to help them and it's done a magnificent job for Rock Island and we want to continue with that. And we wanna make it better by this Bill, so we make a little change in the language. It's gonna to help Rock Island and the boat owners to make this a better... a better deal for Rock Island. So, I ask for your support."

Parke: "Is it a public safety matter to protect these people driving these public's transportation?"

Bugielski: "Right. It's a safety feature and this was all you know through with PACE. PACE wants to do this, as well as all the buses throughout the State of Illinois. But Chicago... the CTA is the only one with the mass transit trains, so that's why we had to amend this to allow it on the mass transit trains, also."

Parke: "Do we... do we have the legal... has your legal department checked to make sure this doesn't open the door for anything that we weren't thinking about in terms of other private use things or does this only relate to public transportation, and it cannot be used by individual citizens as a loophole?"

Speaker Hartke: "Further discussion? Excuse me."

It basically amends the Regulatory Sunset Act and also the Professional Counselors and Clinical Professional Counselors Licensing Act. It extends the sunset from 2002 to 2013 and does some technical changes within the Act. I'll be happy to try to answer any questions."

Speaker Hartke: "Representative Davis."

Davis, M.: "Thank you, Mr. Speaker. House Bill 49... I'm sorry, 4696 is a Bill that hopes to prevent what occurred in Georgia with the crematory... crematories. Under current law the crematory operators must register with the Comptroller's Office before they can do business in Illinois. There are no regulatory functions designated to the office that oversees the operation of crematories. And in light of the horrific events that surrounded the Georgia crematory operator, the Comptroller is offering to expand the duties of the office to provide greater oversight in this particular industry. It doesn't cost any extra money and it requires that they be licensed by the Office of the Comptroller before they can create (sic-cremate) human remains. And it establishes an annual reporting requirement. This Amendment also requires individuals that operate a crematory device, that they have completed training and received certification from a training program that's recognized by the Comptroller. This Bill permits the Comptroller to inspect a licensed crematory and verify that the crema... cremation device has a valid operating permit that is issued by the EPA. Since the Comptroller

already audits funeral homes, then this would be just an added service. It requires the crematory authority to notify the authorizing agent of the reason for any delay in a cremation if a properly authorized cremation is not performed within the time period that's contemplated for the authorization. And it makes it a felony for any person who willfully destroys or damages the deceased of the human being or who desecrates a human remain. We will be ready for any questions, Mr. Speaker."

Speaker Hartke: "Is there any discussion? Chair recognizes Representative Parke."

Parke: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Parke: "Okay, so, we now believe that with the passage of this legislation that the citizens of Illinois are protected from a similar thing happening in Illinois?"

Davis, M.: "We're much better protected... much better protected."

Parke: "Okay, well, it sounds like it's something that's necessary. God forbid, we would never want any of that to happen..."

Davis, M.: "Yes."

Parke: "...to the families and the grief that would be created from it."

Davis, M.: "Absolutely."

Parke: "And so it sounds like a good piece of legislation."

Davis, M.: "Thank you, Representative."

Speaker Harte: "Further discussion? Representative Black."

Black: "Thank you, very much, Mr. Speaker and Ladies and Gentlemen of the House. I rise in strong support of the Bill. I commend the Sponsor for a reasoned and rational response to the outrageous, absolutely outrageous, incident that happened in Georgia. Sometimes we over react, but I think in this case the Sponsor has made a very reasoned and very rational response to something that should have been a wake-up call to all states. I look forward to voting for the Bill, and I hope it gets on the Governor's desk, Representative. I congratulate you for your good work."

Speaker Hartke: "Representative Brady."

together. And we're also going to continue as this goes into the Senate, to work with the Illinois Funeral Directors Association to remind the licensed funeral directors and embalmers in this state that whenever possible, that when they go to the crematory and deposit remains for cremation, that they see that actual event start to be carried out. Correct?"

Davis, M.: "Well, the only... the only problem we have with that is the cremation may not take place that very day or that very evening, it may be the next day or may be the next afternoon. And we would be concerned that the funeral director's time would not allow him or her to be in that vicinity."

Brady: "But, probably in 90 percent of the counties throughout this state, it occurs almost immediately after the body is taken to the crematory. And by reminding the funeral directors, my colleagues, to follow through with that would just be another safeguard in this particular piece of legislation. And also, enforcement of the proper permits that need to accompany that body. So, that's something I'll continue to work on with you as this goes in the Senate and support your Bill."

Davis, M.: "We'd be happy to work with you on that, and we'd also, hopefully, not have to add any cost to the bereaved families."

Brady: "No cost whatsoever, absolutely none."

Davis, M.: "Thank you, and thanks for your work up with us on this, Representative Brady."

Brady: "Thank you very much. Thank you. My pleasure. Thank you, Mr. Speaker."

Clerk Bolin: "No further Amendments."

Speaker Hartke: "Third Reading. House Bill 6012. Representative Curry. Julie Curry. Out of the record. Floor Amendment has been approved. Clerk Bolin: "House Bill 6012, the Bill's been read a second time, previously. Amendment #1 was adopted in subcommittee. Floor Amendment #2, offered by Representative Julie Curry, has been approved for consideration."

Speaker Hartke: "Representative Curry."

Curry: "Thank you, Mr. Speaker, Members of the House. This is a piece of legislation that I've actually been working on for... for several years now. And it comes out of a situation that started in a community in my district and in the Decatur area. Has to deal with the Telecommunications Act in the municipal maintenance infrastructure fee that we allow local communities to pass ordinances and then allow the telecommunications company to collect those... those taxes on their behalf. The problem in... in one of the communities that I represent is that there have been people outside of the municipal boundaries that have been being incorrectly taxed. And when consumers made an attempt to correct their telephone bills and get the taxes taken off

STATE OF ILLINOIS

the bills, we quickly found out that the tel... telephone companies had no mechanism within the state statutes to not only remove the tax from their... from their phone bill but also, when trying to work with the municipalities we found difficulty in getting the municipalities to cooperate with the telephone companies to clear up the matter. So, we've been working with the Municipal League, the telephone companies, the Illinois Farm Bureau has been very involved in this and the Department of Revenue to come up with an agreed upon Amendment that we realize needs some additional work. But basically, it sets in place the procedures for a consumer to make a complaint to the Department of Revenue. The Department of Revenue would have the opportunity and have a certain time period in order to rectify the matter with the telecommunications company and the municipality. I would ask for favorable consideration of this Amendment."

Speaker Hartke: "Is there any discussion? Chair recognizes Representative Parke."

Parke: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Hartke: "Sponsor will yield."

Parke: "Representative, is the Illinois Municipal League still opposed to this Amendment?"

Curry: "They're not opposed to it."

Parke: "Were they at one time, our notes show that they..."

Curry: "They were... they were... the original Bill, Representative Parke, that I had introduced, I believe that the League was opposed to that legislation. In committee, House Amendment... Committee Amendment #1 gutted the Bill and then we all went back into negotiations and we came up with this Amendment that we have today. As it stands right now, the Municipal League is not opposed to the Amendment. We all agree that we would like to make some additional

changes. The telecommunications companies have some additional recommendations that would make the legislation a little bit stronger. They have some concerns about some hold harmless provisions that we'd like to put in place. But this is a work in progress and I would really appreciate the support of the Body in order to move this legislation forward. Because in January of 2003, as you remember in Senate Bill 88, we changed the structure in terms of how this fee would be collected. We rolled all those fees together. And this would be an opportune time for us to put a procedure in place that would allow consumers if... if they would like if... if they believe that they're being incorrectly taxed to put a procedure in place to allow them to make a complaint and then to get this corrected and eventually, hopefully get a refund too, of the money that they've been charged."

Parke: "Representative, have you... have you tried to do this before? Is this something new or has this been some action... some kind of an initiative been tried before?"

Curry: "Well, we've had... we've had the Bill introduced in various forms over the last couple of years and we've been trying to work with the telephone companies, the Municipal League and other various interested parties to try to get some agreed language that everybody could feel comfortable with. And... and also rectify a very serious problem. I'm not just talking about a couple taxpayers or consumers that had this problem. We're talking about in... in one community more than... probably close to 50 people who were over... who were overcharged.

Parke: "Well, let me just say is that there's a reason for me asking that question."

Curry: "Okay."

Parke: "And please correct me if I'm wrong, but it says in our analysis that you're... you're developing a new cause of action. Is that true?"

Curry: "Well, if you want to call it cause of action that would allow consumer to... to remedy an incorrect tax that they're being charged, I suppose that would be a definition of a cause of action. I don't know how you would define that."

Parke: "Well, it's also says there'll be treble damages issued. Is that true, also?"

Curry: "I'm sorry, I didn't hear the last part. Treble?"

Parke: "I said is it true that... that if there's a ruling in favor of the consumer that it'll be treble damages?"

Curry: "Under... you're correct. In the current language that you're looking in... looking at, that it does contain those... that... those words and, but I wouldn't anticipate that the final product would include that."

Parke: "Okay. Well, it just seems like... maybe the consumer needs this tool but it seems like it's a big hammer, and I'm not sure... does this go on or is this just the number of citizens that said that they had this particular problem, or do we see it as a major statewide problem?"

Curry: "Well, all I can tell you is what... what... what's happened in... in my district and around the communities that I represent with just one telecommunications company and there have been a number of problems. But also the Illinois Farm Bureau has been involved in this and they're hearing from members of their organization that this is a statewide problem. And it happens probably more in rural settings than it might in a urban setting, but I... I think it's important that we put a mechanism in place that whether or not you have a thousand, a hundred or just ten

consumers that are affected by this at one time or another, that there's a mechanism in place in the state statute that would allow them to not only remove their name from a tax roll that where they've been taxed incorrectly, but also the opportunity to get a refund."

Parke: "Okay, all I'm not..."

Curry: "And it also... and it also if I... if I could say, Representative, it also forces the municipality who's been receiving this... this tax with very little work on their part, to make sure that the information that's provided from their municipality in terms of who lives within their municipal boundaries is correct. I think it's gonna hopefully, eventually there'll be very few complaints. But I think it's important that we have a process in place in the state statutes that lays out what a consumer can do to try get this problem resolved."

Parke: "Well, I... Thank you very much. I appreciate that and I'm not downplaying. Even if it was one citizen, that's worthy of some kind of a... of a solution. I just think that it seems like it's a big hammer to solve the problem, but obviously, it must be necessary. So, go to it and I'd be curious to see how effective this is, Representative, when it becomes public law and it works for those citizens who need it. It doesn't sound like a bad idea as long as the Illinois Municipal League and the Illinois... the DuPage County Mayors and Managers have signed off or they're neutral, but they're not in opposition. Again, one last time, they're not in opposition, as far as you know?"

Curry: "That... that's correct."

Parke: "Thank you, Representative."

Speaker Hartke: "Further discussion? Representative Johnson on the Amendment."

Johnson: "Yes, I rise in support of this and I hope as this thing works through we do resolve a problem. What the Representative is attempting to cure is something that a number of us have submitted legislation on before. And what we have in our own area, Representative Parke, just so you're aware of this, is that many people who live in unincorporated areas, on their utility bills or their telecommunication bills have been assessed the municipal taxes. And for years this has been going on. I happen to live in an unincorporated area and I get assessed this tax all the time and a it's a case that is simmering there and is gonna be ripe with a class action lawsuit pretty soon if we don't get to it. So, I applaud the Representative for this effort and I hope we finally get this thing resolved."

Speaker Hartke: "Is there any discussion on the Amendment? The Chair recognizes Representative Parke."

Speaker Hartke: "The Sponsor will yield."

Parke: "Thank you. Our analysis says that there's... that you've agreed to hold the Bill until you can remove the opposition of numerous groups that filed in opposition to it. Does your Amendment 2 take care of that or will there be an Amendment 3? We show an Amendment 3, also. Do you have another Amendment that you're gonna file with this?"

Colvin: "Yes. There is a third Amendment, but Amendment #2 removes the opposition. It was banks and savings and loan institutions in this state in terms of... there are many times have no impact on these types of loans. So, they haven't... their opposition has been removed as a result of Amendment #2."

Parke: "And then when this goes on and you're gonna ask for support of Amendment 3, also?"

Colvin: "Yes."

Speaker Hartke: "Representative Davis."

Davis, S.: "Thank you, Speaker, Ladies and Gentlemen of the House. House Bill 5592, as Representative Jones said, he's been gracious enough to take over the sponsorship of this Bill. What the Bill does, it helps the public and private utilities, in particular, water companies and sewer companies in the State of Illinois. And there's a problem in the State of Illinois with the fact that we have two different ways of platting road right-of-ways in the State of Illinois, by plat or by common law. And what the language in the Bill was trying to do is to clean up some of the confusion that has occurred when it comes to the fact that these utility companies are trying to put in public and private utilities. In committee, there were several questions concerning property rights issues and there was opposition from the Illinois Farm Bureau. However, there has been an agreement reached between the Farm Bureau and with the water companies on this issue. They are currently working on an Amendment. They have agreed to... to an Agreed Amendment concerning the property rights issue. What we would like to do is move this Bill over to the Senate and put the Agreed Amendment on it into the Senate and bring it back to the House for a concurrence. Fritchey and many of you, we've had circumstances where what happened with me was I was out gathering my signatures to get on the ballot and ran into a gentleman, a Hispanic gentleman, who had served at Normandy and in other famous battles in World War II and he had always had a veteran's plate, but when the circuit breaker income level went up, he qualified for the circuit breaker for the first time and so chose to get the lower cost license plates. But he really wanted to have the veterans' plates. And so, this Bill will really address this issue for him and for many others. I think it's a great way to pay tribute to all the wonderful veterans who have done so much for our country and to let them have this break. So, I would also urge a 'yes' vote. Thank you."

Speaker Hartke: "The Chair recognizes Representative Parke."

The Amendment that was envisioned in Amendment... in the Amendment was to incorporate two other categories of veterans' plates that had... that had inadvertently been left out of the Bill, one for National Guard Reserves and one for the US Marines."

Marines plates as well as the National Guard plate, but what it also does is create the professional sports team plate. This was an idea that I came up with when I was out of town and I saw a number of cars sporting a license plate with the logo for the local baseball team. We started looking into this and it came up with the idea of creating license plates that would be available with a number of different professional logos of sport teams: Cubs, Sox, Bulls, Bears, St. Louis Cardinals, St. Louis Rams, with the increased revenue from the increased fee going to the Common School Fund. Presently, the most popular plate in Illinois is the environmental plate which has generated about an additional \$1.7 million in state revenue. We envisioned that this would actually surpass that and generate at least a couple of million dollars toward the schools."

Parke: "What was the opinion of the Illinois State Police to have all of these special sports plates going out? Did they testify in committee on it in any way, shape, or form?"

Fritchey: "They've taken no position and showed no opposition."

Parke: "Okay. Very good."

Slone: "What is the revenue impact of the portion dealing with the veteran plates?"

Fritchey: "The fiscal note was filed. It was of de minimis impact. I want to say it was maybe about \$25 thousand. What you're talking about doing, though, is really clarifying something in which we believe and the Secretary of State's Office believes was an omission and that was not to incorporate the circuit breaker benefits for all categories of veterans' plates. I believe, presently, it was... the reduced rate was put in place for the POW plates and Pearl Harbor, but that left out Silver Star, Bronze Star, the Marines, Army... Like I said, about another 10 different veterans' plates. So, it's a very much a small price to pay to allow these people to keep their plates and receive the circuit breaker benefits."

Slone: "Thank you."

Clerk Rossi: "House Bill 3705, a Bill for an Act in relation to schools. Third Reading of this House Bill."

Speaker Hartke: "Representative Delgado."

Delgado: "Thank you, Mr. Speaker and Members of the House. 3705, this Bill amends the Chicago School District article of the School Code and creates changes in a name of the professional personnel advisory committee to professional personnel leadership committee, PPLC. This is a group of teachers in the Chicago system with the LSC structure and the LSCs are a elected body of the school that'll make the decisions on that local school's budget and puts together their budget for that year. And every LSC has teachers on their LSC as elected officials in addition to having a professional committee that will advise the creation and modifications of that budget. And we have all agreement on it, to move this out of the House. And at this point, we did amend it so that it would reflect an advisory level only, so we do not dilute the power of the local school councils, that to me is so important since I'm a former local school council member. However, it does allow the teachers to have a little bit more opportunity to... because they understand the things that are going on in their classrooms and the dynamics that are necessary to have a successful budget. And I would ask for your support and an 'aye' vote."

Cowlshaw: "My concern about this proposal, all along, is one that I believe you share and that is that the local school council members are actually elected the same as you and I are elected and they have certain responsibilities and certain decision-making capacities that were provided for when local school councils were first created through State Law. I believe, the local school councils are one of the great strengths in the Chicago Public School System today and I think of them very much as though they were the equivalent of a school board where I live."

Delgado: "That's right."

Cowlshaw: "Because where I live we have seven members on a school board. They are elected from throughout the school district and they make the decisions about the budget and a number of other important things, like curriculum. The local school council in Chicago serves one attendance area, that is, there is one school building that those people are responsible for and about which they make decisions. The makeup of that council was very carefully considered at the time that they were created, so that there would be no one interest group with a majority on that council. My concern with this professional personnel committee is that it be absolutely clear and that, in fact, it perhaps is important as legislative intent for you to declare that now that you have amended this so that it is an advisory role only that, in fact, there is no intention whatsoever for any decision making that currently is exclusively for local school councils, is to be shared in any way with these new committees. Is that your intent?"

Delgado: "Yes, it is, Representative Cowlshaw. And I want to commend you because you did help me shape some of this language in committee and we reduced the amount... As you

know, the professional committee exists anyway, but we want to keep it advisory and we made sure the number was reduced down to seven because at first of all, they won't have a binding decision, but even if they had a little vote among themselves to take an idea forward, it would not topple and no coup d'etat's gonna happen at any of my local school councils, to go ahead and topple the LSC vote, because there's more members on the local school council than on the professional advisory. It is my clear intention, for legislative intent purposes here today, that we have listened and helped... and thank you for help crafting that in committee with me, to assure that the teachers will... this committee will just have an advisory role around the parameters to help and be part of that decision because it is all, just like five fingers on my hand, they all are part of that body. However, we are clearly conscious that the local school councils are elected by their residents and they are the ones who will ultimately make the final decision and I will fight it tooth and nail to make sure that is and if I had... and so I've been assured by all parties and the language is very specific now that we can move this Bill to the Senate. And it does serve the purpose that you and I and other Members put together and I will be the protector and champion of that intent."

Cowlshaw: "Thank you for clarifying that. I appreciate that very much. Thank you, Mr. Speaker."

Speaker Hartke: "Further discussion? Seeing that no one is seeking recognition, the question is, 'Shall the House pass House Bill 3705?' Speaker Hartke: "Representative Mathias on Amendment #3."

Mathias: "Thank you. Floor Amendment #3 tightens up the procedure for inspections by local inspectors of new school construction. It tightens up the procedure as to when they can review the plans and also when they can make the inspections in conjunction with the regional superintendents in their area. I ask for approval of Floor Amendment #3."

Lyons, J.: "Thank you, Speaker, Ladies and Gentlemen of the House. House Bill 4077, of course, amended earlier today, is a shell Bill now dealing on the subject of a corporate aid program of some sorts yet to be determined that would benefit some of the private and parochial schools in the City of Chicago. I think... and the rest of the whole State of Illinois, Chicago, the suburbs, downstate. There's a coalition pretty broad based who are in support of this in theory, but as most of us know, this is not an ideal year to bring issues that are gonna cost the state any additional money. So, what I'm attempting to do here is to keep the purpose alive, send it over to the Senate in its present form, and if we can work something out, with a little more time, bring it back here for our full review."

consideration."

Speaker Hartke: "Representative Rutherford."

Rutherford: "Mr. Speaker, Ladies and Gentlemen of the House, thank you very much. This legislation... the Amendment would actually change the nursing component in the rate-setting mechanism for our nursing homes. Many of us have heard a great deal about the IOCs, the inspection of care. What we're looking to do is change to a formula that would use a minimum data set. This legislation is being supported by all three of the associations in the nursing home industry, as well as the Department of Public Aid have agreed to this. It is budget neutral and I'd be glad to go into more detail as questions may come."

Speaker Hartke: "Is there any discussion? The Chair recognizes Representative Feigenholtz."

Feigenholtz: "Thank you very much, Mr. Speaker. Will the Sponsor yield?"

Speaker Hartke: "Sponsor yields."

Feigenholtz: "Representative Rutherford, could you please clarify, in this legislation and on this Amendment, is there a hold harmless in here?"

Rutherford: "Yes, there is a hold harmless that would be in effect for two years after implementation under the new methodology. And the reason for that is... and to go into a little more detail, this would actually provide that the dollars that go to our nursing homes would be used on a formula under the minimum data set which is also already required by the Federal Government but it would tie the dollars to it. So, it would say that the dollars will follow those residents with more of a medical need. That is a change from the way we're doing it today. We are doing it on an average per... per facility that was from an

STATE OF ILLINOIS  
92ND GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

114th Legislative Day

antiquated system that we froze here by the Legislature a number of years ago. What... And to this new methodology, it depends on the resident mix as to the type of dollars that would be there. So, if they have a mix of residents that have a greater medical need, they would receive more dollars; those with less of a medical need, would receive less dollars. For that reason, some of the nursing homes today may fall in the point that if this methodology went into place, they would receive less dollars. We wanted to hold them harmless for a two-year period and at that point then they would fall under this new methodology."

Feigenholtz: "And there's no intention on tinkering with the sunset... on the two years for hold harmless. You're not planning on extending it?"

Rutherford: "No, that is not my intention at all."

Feigenholtz: "Okay. I also have another question about... I think that the committee who's been working on this has really been doing a great job. I know it's very tedious work and it's a lot of small details, but they've come to the conclusion that using MDS is a better method than IOC. Is this Amendment... Does this Amendment make the Bill subject to appropriation?"

Rutherford: "Yes, it does."

Feigenholtz: "But we already have something in statute that involves a cost report. Could you explain to me what this means for the Legislature in a circumstance in a budget year such as this one when we were unable to cut the nursing home rates at the same level as, let's say, hospitals and other Medicaid providers?"

Rutherford: "This would... This Bill would not change what is already in statute with regards to the ability of the General Assembly or the administration in regards to

STATE OF ILLINOIS  
92ND GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

114th Legislative Day

setting rates. What this Bill does, it says that there are three components in the rate-setting mechanism... already existing today are three components to the rate-setting mechanism. One is administration support, a second is capital, and a third component is the nursing component, which obviously is the much larger of the percentages of the three. What we're saying is, in order to establish the nursing component factor of the rate setting we would no longer use the survey process called inspection of care. We would use a minimum data set methodology with the dollars tied to that. What exists today in statute will not change in regards to the issue of rates. It will still necessitate the General Assembly to determine the amount of dollars to go into the overall pie that would go out to our nursing homes."

Feigenholtz: "Did you... Representative Rutherford, did you answer my question about the scenario about... I'm sorry. There's a lot of noise in here, about the scenario where the Governor had to go in and cut across the board cuts and how we were unable to do this with the nursing homes? We would have had to do it statutorily. If we pass this Amendment, that doesn't change that. Is that what you're telling me?"

Rutherford: "This Amendment does not change anything with regards to appropriations. That will still continue to be as it is. This Bill says that the component, the nursing component in the rate-setting mechanism, will be established under a methodology using the minimum data set rather than inspection of care."

Feigenholtz: "If the nursing home determines that they want to shift dollars around from the nursing portion to the capital portion or to other components, are they allowed to

HOUSE OF REPRESENTATIVES

do that under the law right now?"

Rutherford: "I will stand to be corrected and verify it, but I do not believe they have that ability."

Feigenholtz: "But if we gave the Department of Public Aid authority to do that, for instance, let's say a nursing home decides that their subacute care population is shrinking and they have empty beds and they would rather shift some more... some of the Medicaid dollars to other services, perhaps home care or whatever. Under statute right now, do they have the ability to do that?"

Rutherford: "I don't know that answer. This would not change whatever that answer is, though."

Feigenholtz: "Well, in the future, I would like to possibly work with you on that because I think the future is taking us into another direction and that's where we should be spending our money. But I thank you..."

Rutherford: "I can support... I..."

Feigenholtz: "...for your time."

Rutherford: "Absolutely. I can support working with you on that. I think it's a good move."

Feigenholtz: "Thank you very much, Representative Rutherford."

Speaker Hartke: "Chair recognizes Representative Brunsvold."

Brunsvold: "I'd like to draw the Body's attention to the center aisle. Talking to Tom Johnson is former Member of the House and now Congressman and my former seatmate and a good friend and the top singer on the House Floor when he was here, David Phelps."

Speaker Hartke: "Mr. Brunsvold. Representative Lindner."

Lindner: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Hartke: "Sponsor will yield."

Lindner: "I just have one quick question. In talking to one of my nursing homes about this change, I was told that this would not apply to..."

Rutherford: "I can't hear a word she's saying, Mr. Speaker."

Lindner: "I was told that this..."

Speaker Hartke: "Shh."

Lindner: "...would not apply to people who have been diagnosed as mental health patients in the nursing homes. They would not be able to use this method."

Rutherford: "This does... This applies for the nursing component and our long-term care. It does not go into any of the DD-Mental Health allocations. That is correct."

Lindner: "Okay, even if they have that population..."

Rutherford: "You gotta talk into that."

Lindner: "Even if they have that population in the nursing home they would not be covered?"

Rutherford: "This just changes the methodology for dividing the moneys for the Medicaid reimbursement for those that are in long-term care."

Lindner: "Okay. Thank you."

Speaker Hartke: "Further discussion? The Chair recognizes Representative Flowers."

Flowers: "Thank you, Mr. Speaker, and Ladies and Gentlemen of the House. Will the Gentleman yield, please? Representative, when you say it changes the methodology, but yet it makes

92ND GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

no monetary changes, would you please explain that?"

Rutherford: "Would you repeat the question?"

Flowers: "Would you please explain what do you mean that it makes..."

Rutherford: "Mary, I can't..."

Flowers: "...it changes the methodology."

Rutherford: "Today, we allocate the moneys to... for Medicaid, to long-term care through a process in part using an inspection of care and that is for the nursing component, one of the three components of the rate-setting mechanism. This would alter that to use an inspection... instead of an inspection of care it would use the minimum data set. And if I could explain, today, every nursing home in the state that has residents that are in... receiving Medicaid or medicare need to complete a minimum data set which is a federally-mandated inventory of the health of that resident. They are already doing that. What we are looking to do is to tie the rates to that minimum data set as opposed to this survey process called inspection of care. And what this will do, Representative, is it will say that the dollars will follow the medical need of the resident as opposed to an average per facility."

Flowers: "The dollar will follow the medical need of the residents as opposed to..."

Rutherford: "An average in that facility. So, today, we use an inspection of care process that will say the average rate at this facility will be hypothetically \$90, \$90 across the board and if by chance your medical need as a resident in that facility is not as dire because you are able to go to the dining room, you are able to bathe yourself, you are able to go to the washroom yourself, is different than if myself, for example, if I could not go to the dining room,

could not bathe myself and needed assistance to go to the washroom. It costs more to care for me than someone else. We know the medical situation of that individual through the minimum data set that is already being collected and we are looking to tie rates to that rather than just an average."

Speaker Hartke: "Shh."

Flowers: "Representative..."

Speaker Hartke: "Please, Ladies and Gentlemen, let's lower your voices. Proceed."

Flowers: "...you know, we were up... very late last night discussing this Amendment and I need for you to please clarify for me... I need for you to please clarify for me, are you taking moneys away from one group of patients and giving it to another group?"

Rutherford: "No. And the reason for that, and I'd be glad to explain it. We are not taking money away from individual residents. We are saying... we are saying that today a facility may receive more for an individual patient than what the actual cost may be, but it averages out so that there would be no... that the person that it's costs more than what the facility's being reimbursed. They're losing more money there. And what we're looking to do is actually have the dollars follow the medical need. In fact, I can tell you, Representative, if you look at what's happened across the state: in 1999, seven nursing homes in this state closed. In the year 2000, 12 nursing homes closed. In the year 2001, 18 nursing homes closed and a great part of that is because #1 we are not adequately funding them. This Bill will not correct that, but what we will do is, we will say we will have the dollars that this General Assembly appropriates to follow where they are great...

STATE OF ILLINOIS  
92ND GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

114th Legislative Day

have the greatest need and that is those with more greater medical necessities. We are finding today that there are certain regions of this state, for example, in one region of the state, the state is reimbursing 17% below cost. In another region of the state, we're at 2% below cost and the reason is we are not following a process that is fair to what the need of the resident is, we're using a mathematical average or formula."

Flowers: "Okay. I think I've figured it out now. Okay. We're taking the same pot of money and we're giving it to the patients with the greatest needs..."

Rutherford: "There... Representative, yes. We are taking a pie that this General Assembly determines how much is in it..."

Flowers: "Right."

Rutherford: "...and we're saying... we're gonna divide it following a medical need."

Flowers: "Now, instead of this nursing home taking care of a hundred patients with a thousand dollars, they will be taking care of 50 patients with the same thousand dollars."

Rutherford: "No."

Flowers: "Okay, explain that one?"

Rutherford: "I don't understand the question."

Flowers: "Well, I mean, how... how is it that we're going to take the same amount of moneys, deal with the patients with the greatest needs, and still have the same amount of patients. There has to... someone has to lose in this equation."

Rutherford: "We are not reimbursing on following need, we are reimbursing on an average. A hypothetical could be, that because the average is set where it is, you may actually have less medical need than what costs are and there may be a reimbursement higher to you who have less medical need, so they're making more money off of that compared to

HOUSE OF REPRESENTATIVES

someone who has a greater medical need and they are losing more money."

Flowers: "Why can't we do that without this legislation? Because the same people are in the same nursing home and the average is what the average is and instead of you spending the whole \$90 across the board, equal across the board, you're gonna spend 20 on this patient, and the rest of it on the other."

Rutherford: "Because we have it set up that the procedure for allocating the funds is through an inspection of care process to determine the nursing rate... I'm sorry, to determine the nursing component. We do not have the ability today to follow the minimum data set, the federally required paperwork already being done by that facility's staff to put the rates to it. We are required to follow an inspection of care and that does not follow need."

Flowers: "Representative, I know you have worked very hard on this legislation and it's very complicated for me to understand. And I just need to ask you one more time..."

Rutherford: "Anything you want, Representative Flowers."

Flowers: "I just need clarification. You are not taking away moneys from no other patients and your... your MDS... What is that again?"

Rutherford: "Minimum data set."

Flowers: "The minimum data set that you're going to take from each patient, that's an assessment of the patient is it?"

Rutherford: "The minimum data set is... very simplistic again, an inventory of the health condition of an individual."

Flowers: "So, if the health condition of the individual gets better, what happens to the moneys that you had set aside for that particular patient?"

Rutherford: "As the health condition of the resident may change,

STATE OF ILLINOIS  
92ND GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

better or worse, those dollars will change because the cost to maintain that resident's service will change. If you... if you are a resident that was not able to go to the dining room and had to be fed in your room, that costs more than if you were a resident who was able to walk or go in your wheelchair to the dining room."

Flowers: "But..."

Rutherford: "So, the change is... is, what I hope would be, a logical change. If it costs more for you, there should be more dollars. If it costs less, then those dollars are not needed there."

Flowers: "But my biggest concern about the legislation is that you may have ten patients comin' in today and for whatever... these patients may be weak from the operation that they just had..."

Rutherford: "Right."

Flowers: "...so therefore, they're not able to get up, go to the bathroom, feed themselves... so therefore, the assessment that you would have of these patients you will say that their needs are greater."

Rutherford: "I'm sorry, we..."

Flowers: "And so therefore, that'll be more moneys going to this particular nursing home upon because of the assessments of which you just made of these ten patients. And two days later, these patients may be better, but you have the greatest amount of moneys from these patients so therefore, some place down the line there are some other needy patients out there that will not be able to have access because of a determination that was made because of someone's opinion about this patient or these patients."

Rutherford: "Representative, the minimum data set is done on a quarterly basis. So, the health condition and inventory of

HOUSE OF REPRESENTATIVES

that individual you will be able to profile and track through the year. So, if there is a change in that... health condition of the individual, greater or worse for their needs, we will be able to monitor that in a rate reimbursement methodology using this MDS. And if I may, what actually is a truer injustice for the resident in the facility is what we have today. Today we have a frozen, antiquated inspection of care and if that facility's rate is froze under this mechanism, if your health condition worsens and your medical need increases, there is not the means to put additional resources to help you. That's what we are dealing with today. We are trying to move out of that."

Flowers: "Representative, again, I understand what you're trying to do here, but I have a problem with this Bill and let me just get to the Bill. You have to wonder why nursing homes are closing. You can say because of the cost factor, if you so choose to. It could be that people are living healthier, longer at home as opposed to going into a nursing home, that's #1. And you're talkin' about the patient, the money's following the patient, but that doesn't necessarily give an increase in regards to qualified workers in that nursing home. We've seen the horror stories in regards to nursing homes, we've heard about them throughout the years, nothing has been done. So what I... Representative, my biggest fear, with this legislation, is that someone's grandmother is gonna be placed in this unsecured facility to be abused and misused."

Rutherford: "This legislation, Representative Flowers, with all due respect, does not have a darn thing to do with that. The Department of Public Health..."

Speaker Hartke: "Representative Flowers, please let Representative Rutherford answer the question."

Rutherford: "Please, do not read into this legislation anything in regards to quality of care nor potential abuse. What this does is a methodology to reimburse following medical needs."

Flowers: "In regards to the moneys and the medical needs of the patients, it has a lot to do with it. But let me ask you, you said... the reason why this legislation is needed, you said, was because there has been 17 nursing homes to close."

Rutherford: "That is not what I said..."

Flowers: "Okay."

Rutherford: "...what we need this legislation for. I was pointing a fact that we have ourselves a looming, long-term care crisis on our hands and the number of facilities closing is moving in the wrong direction. What we are finding and I believe I shared with you in part last night in committee and I believe I would have in some part today on the floor. We have an extremely disproportionate reimbursement means within our seven regions of the state. There are portions... some of the regions of the state are 17% below cost, others are much greater to get reimbursement to their cost. What we are suggesting here is rather than using some average let's really go out and do it where the needs are most and that is best followed on

the medical condition of the individual. Rutherford: "I appreciate, Rep..."

Flowers: "...but I still don't like this Bill. Thank you."

Rutherford: "The only thing I would ask is if you'd just vote for it."

Flowers: "Oh, well. Thank you."

Speaker Hartke: "Further discussion? I might remind the Members that there are four people still seeking recognition. There are four fiscal notes filed to this legislation. I will be using the timer. Representative Hamos, you have five minutes."

Hamos: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Hartke: "Sponsor will yield."

Hamos: "Representative, I have two questions for you. One is... has to do with this subsection or paragraph 'A' on page 3, which has to do with facilities..."

Rutherford: "Say it again, page what? What page, Julie?"

Hamos: "Page 3, subsection A, starting on line 22."

Rutherford: "Okay."

Hamos: "This has to do with facilities that would receive a lower nursing component rate under this. What is... what is the implication of this subsection A, can you tell us?"

Rutherford: "Great. Yes. What is does, Representative, is it... we are providing for a period of transition from the

present rate-setting mechanism to a new one and to go through that. Once we have established that rate-setting mechanism, we are going to hold harmless the facilities that may, under a new methodology, receive less moneys. And it would all be subject to appropriations. So, if for some reason the pie shrank by 10%, all would shrink by 10%."

Hamos: "Then how long does that hold harmless remain?"

Rutherford: "The hold harmless is for a two-year period and it is specifically outlined that it is two years and no longer."

Hamos: "Okay. Thank you. And the second question I would ask, has to do with this language on page 4, line... beginning on line 5. This is paragraph 'C'. What does this paragraph mean and why do we need that paragraph?"

Rutherford: "We put that in there so that we were sure that it was gonna be subject to appropriations and the fact if, for some reason, the... And this is trying to help identify that issue of the pie. We are not trying to, in this procedure, say the nursing home industry will receive a certain amount, a greater amount, or less of an amount. What we are saying is, every year by the General Assembly's authority, we will appropriate moneys and whatever that size of the pie is that this new methodology will be the means that we divide it."

Hamos: "Well, Representative, the way that I read this, and I'd like to for purposes of legislative intent clarify it, is that, for example, if the pie... based on the pie, I understand the concept of the appropriation. Let's say that nursing home utilization goes down and there are lots of empty beds, they're not being vouchered, et cetera, and somehow the pie, the appropriation, actually could be reduced for a given year."

Rutherford: "I can't..."

Hamos: "Now, could be reduced because it's not all used up. Okay. Under this subsection, you're not intending to say, are you, that when it says, 'shall be adjusted', that that would mean that the state would be required to adjust upwards the rate to make sure that the entire appropriation was being used in a given year?"

Rutherford: "Thank you, Representative, that is not the intent. The intent is to say that once we set the rate method... rate-setting methodology and if under this scenario you outlined a facility has empty beds, it will still... the MDS will be zero 'cause there's not anyone in that bed. So, to clarify your question, I appreciate that, it is absolutely not to say that the industry or the department must spend everything in their budget, it says that they must do it following the appropriations and the rate-setting mechanism that they've got there."

Hamos: "As the maximum..."

Rutherford: "That is correct, yes."

Hamos: "...but not as the minimum. Okay."

Rutherford: "Thank you, Representative."

Hamos: "Thank you."

Rutherford: "That is correct."

Hamos: "Thank you."

Speaker Hartke: "Further discussion? Chair recognizes the Gentleman from Madison, Representative Holbrook."

Holbrook: "Thank you. Will the Sponsor yield?"

Speaker Hartke: "Sponsor will yield."

Holbrook: "Dan, currently the nursing homes use the MOSs methodology for... do they not?"

Rutherford: "I think you asked me, do they use MDSs today?"

Holbrook: "Yes."

Rutherford: "To answer the question, a nursing home that receives Medicaid or medicare is required by the Federal Government to do a minimum data set inventory on a resident when they come into the facility. I believe it is then quarterly they then continue to update those. What is not done to date, Representative, is the state does not tie its rate-setting mechanism to that."

Holbrook: "They should though, should they not because it's already..."

Rutherford: "That's what this..."

Holbrook: "...a system, that's established."

Rutherford: "That's what this Bill would do. This Bill would require the state to set rate mech... rate-setting mechanisms to the MDS which is the medical condition of the resident."

Holbrook: "Well, the older system of the IOCs, haven't we abandoned that for about ten years now, in most cases, unless it's done upon request of the care facility?"

Rutherford: "That is correct, Representative."

Holbrook: "So, what we're doing is we're taking these nurses, instead of sending them into the backroom to fill out paperwork on IOCs, we're gonna be able to use the current methodology the Federal Government is already being provided by through MDS and they're gonna be out there working with the patients, my grandma and my aunt and my mother's, rather than out filling out paperwork. So, this should enhance patient care, should it not?"

Rutherford: "You know, Representative, shame on me for not highlighting that a lot sooner. You are correct, Representative Holbrook."

Speaker Hartke: "Further discussion? Chair recognizes Representative Black. You have five minutes."

Black: "Thank you very much, Mr. Speaker. I won't need five minutes. To the Bill."

Speaker Hartke: "To the Bill."

Black: "I thank Representative Holbrook for his very insightful comments about what this Bill does. And the questions, while they've all been good, this legislation evolved over a series of hearings that Representative Rutherford held throughout the state putting several thousand miles on his vehicle. It is not the product of something that was generated in a backroom by two or three people. And in all those hearings I don't think I heard of any opposition to this concept, be they from children who had parents in a nursing home, be it the owners of the nursing home, and in some cases, these are publicly-owned nursing homes. The one in my county, who testified at a hearing, is a county-owned nursing home. I believe, Representative Rutherford can correct me if I'm wrong, I believe Illinois is currently the only state in the country that uses an outmoded inspection of care method to track the... not only the reimbursement rate, but the wellness of people in nursing homes. We're the only state that does it. The minimum data set is a federal standard and it was not created in the last year by George Bush, it's been around for more years than I can remember, that has been generally accepted by all states and all of those people with the stake in the nursing home or extended care business. And I daresay, and I think... I think what's important,

STATE OF ILLINOIS  
92ND GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

Representative Rutherford said some... some several minutes ago, if we don't do something now to insure the viability of extended care or nursing home facilities, the baby boomers are 10 to 15 years away, as are many of us in this chamber, from needing long-term care. And if we don't start to take proactive solutions and remedies now, the beds will not be there when the baby boomers begin to need long-term care. In fact, they're closing at such a dramatic rate in some counties of the state, they may not be there for our parents or our grandparents in the immediate future. This is, I'm sure the Representative would say, a work in progress and it represents a tremendous amount of work that he has put into this and I am not aware, after hearing after hearing after hearing all over the state in Democrat, Republican, Independent areas, of any significant opposition to this concept. It is, I think, a step in the right direction, even the step that the Department of Public Aid has indicated they can support and in fact, do support. It is a very reasonable piece of legislation to get us on the road to making certain that the long-term care industry remains viable in the State of Illinois, not only for the short-term, but for the long-term when many of us may be looking for that kind of care and need a bed close to our home in the waning days of our life. I would hope that all of you have examined and followed the debate very carefully and can vote 'aye' for the Gentleman's Amendment."

There are a number of general standards that, have been in the Bill, set out as an ideal for the commission to try appro... to approach. Let me give you an example of a few of them: provide access to a full range of preventive, acute, and long-term health care facilities; improve the quality of health care services offered to all Illinois residents; provide portability of coverage regardless of employment status; provide a minimum..."

Krause: "Let me also ask you, have you looked at or has anyone given you an estimate of what the cost might be that would have to be set aside in order to implement some of these, even called them, minimum standards?"

McKeon: "Obviously, until the commission, if enacted, would have to delineate the details in the breadth of the program and at the time, the Department of Public Health could put some estimate on it. Currently, I have a fiscal note from the Department of Public Health..."

Krause: "And what..."

McKeon: "...and their position is, given what we know or given what we don't know in terms of the details of implementation, they're not able at this point to put a cost estimate on the Bill."

Krause: "All right. All right. Let me go to the Bill. This Bill was presented in Health Care Committee and we had the opportunity to discuss it. And I think everyone here would certainly agree that we have to do more in the field of health care for all of the residents of the state. Health care, indeed, is not something that should be left to just those who maybe can afford it. It should be provided and the opportunity should be given to many. However, this legislation is not the approach and is not the way that we should move forward on this subject matter. We have, in Illinois, attempted in many areas to serve the needs of the underinsured and obviously, of those who are insured and we have passed legislation for that. However, this legislation by specifically providing that the state 'shall' implement a health care plan very clearly would direct everyone towards a single-payer system, call it the Canadian system, call it socialized medicine, but indeed,

STATE OF ILLINOIS  
92ND GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

114th Legislative Day

it would be a system that would be totally run by government and that does not lead to the solutions that we want. In the field of health care, very much it is important that the government be involved. It should not be left open totally to the marketplace. But when you look at other areas that have run a single-payer system, you wind up with extreme rationed health care. You wind up, as in Canada, where the residents up there who do have money, leave the area and they go to Detroit, or they go to Buffalo for their health service. You do not have the quality control that you have in this nation and with the extreme rationing of health care, we do not obtain what we would like to do and that is, again, to move forward to assist everyone with a health care system. It is important that we continue to work on this issue. It is important that we try to resolve many of the issues outstanding. We have other ideas that we have moved, but it is not wise to go ahead with a plan that would exclude the private sector which, indeed, is what this does. This legislation is not the answer to solving the problems as they relate to health care. Thank you."

Speaker Hartke: "Further discussion? Chair recognizes Representative Parke. You have five minutes."

Parke: "Thank you, Mr. Speaker. Ladies and Gentlemen of the House, I rise in strong opposition to this legislation. This is universal health care. On the face of it, it sounds like a good idea, but in reality when you look at this kind of legislation and look at other sta... other countries in the world that have implemented this, you realize that there's a significant outlay in increased costs. In England, the cost is anywhere between 9 and 17% of personal tax rate that is applied to this system to

provide the universal health care. And on top of that, their health care is inferior to our health care. This is not the answer. Ladies and Gentlemen, you need to pay close attention to this legislation. This is not what we need to have done for the people of Illinois. This is what is a pipe dream. We need to work internally to try and make the health care system of this state better. This is a... an idea that cannot be solved on a state level. You will drive Illinois business out of this state. They'll do business in the surrounding states. We will lose jobs. People will have to move because of the relocation of jobs. This is not what we need to have done. This is inappropriate. This is not what we need. And there's a country western song that says something to the effect, beware of unanswered prayers. I'll also, I would like a verification of the Roll Call if this receives the required number of votes."

Speaker Hartke: "Further discussion? The Chair recognizes Representative Flowers. You have five minutes."

Flowers: "Thank you, Mr. Speaker, and Ladies and Gentlemen of the House. I would like to thank the Gentleman for bringing forth House Bill 1984. No other legislation could we ever debate on this floor will be more important than health care. If you don't have your health, the rest of what we're talking about is null and voided. When you take into consideration the state in which this country is in today, we're all over the country fightin' all kinds of wars for other people's right, but right here at home the people that's fighting over there when they come back will not have the access, the availability, to quality health care. Insurance to put forth that plan. Health care is very important. When you take into consideration what we're doing now, having people to use the emergency room for a doctor's office is unconscionable. If this was a private business, it would not be ran that way. When you take into consideration how much it costs to go to an emergency room, when you take into consideration the economy, sick people cannot put forth or work in a sick economy. Miller: "So, you have not heard from them, in one..."

McKeon: "I have not personally heard from them, no."

Miller: "Okay. Okay."

McKeon: "They have..."

Miller: "And that your legislation does not promote any particular plan or does it promote a single-payer plan or a private plan or any other thing like that?"

McKeon: "It does not identify any single plan except... and it lays out a process for identifying in attempting to develop a plan to coordinate a variety of responses. I would expect the largest health care provision would come out of the private sector, as it should. However, as we know, even with today's system, the private sector does not deal with the needs of all people in our state and the state is required to take some action. So, what... This is a planning process. It'll involve a report to come back to the Governor and this Body, who must then take action on those recommendations and will pick and choose among those recommendations as it sees fit."

Miller: "So, this is similar to other commissions that have been established in the state, but just dealing with health care? We've esta... we've formed other commissions and things like that. This is something similar to that, correct?"

McKeon: "It's very similar. The naysayers are saying that, you know, this is going to be universal health care."

Certainly, it's going to involve increasing access. It's not a single-payer system. The recommendations that are being suggested and the areas of inquiry of this commission is to look at multiple sources of providing health care. Clearly, the free market, the private sector will be the largest provider for those persons who are employed, but it would also reduce some of the tremendous costs that the private sector is picking up now as well as the government sector because we're paying... in our premiums we're paying for the benefits that we receive, not only our benefits, but all of those uninsured that are going to hospital emergency rooms because they have no other access to health care. The potential might be for the private sector that it could reduce some of those premiums as we clearly allocate the responsibility of those costs."

Miller: "Some of the previous speakers had questioned the fact that the private sector was not involved in this legislation. Is there an opportunity for them to become involved? Is it after the commission has released its information or can it be amended to include at certain parts of this?"

McKeon: "Currently, the legislation creates a bipartisan health care reform commission consisting of 30 members. The Governor appoints 15, one half of those members, including the Director of Public Health or his designee, the Director of Aging, Director of Public Aid, Director of Insurance and three members from the Human Services, including the Secretary of Human Services or his or her designee."

Miller: "But if... but is the private..."

McKeon: "But also includes two people appointed by the President of the Senate, two by the Minority Leader, two by the Speaker, two by the House Minority Leader. So, clearly

through that appointment process various aspects of the public private sector, manufacturing, business can be represented."

Miller: "Okay. So, with the 15 members that the Governor can appoint can be from the private sector covering those concerns?"

McKeon: "Absolutely. There is no restriction or specificity as to where those members should come from."

Miller: "Okay. To the Bill. I stand in support of this legislation, too. A few years ago, I think it was Bradley University had a study that came out in regards to Illinois which one out of three Illinoisans did not have health insurance and were not covered. And as many of us know, that if something happens to us the health care costs can be devastating to a family, it can be devastating to our loved ones, it can be devastating to our entire..."

Speaker Hartke: "Mr. Miller, bring your remarks to a close."

Miller: "Thank you. Thank you. And nobody else except... obviously, I am tremendously concerned in the quality of health care in the State of Illinois and what kind of a delivery system it will be. And so, all this legislation does is start to attempt to address this discussion, to deal with the uninsured, to deal with those who aren't able to afford health insurance and to deal with those of us who aren't covered under those... that umbrella of some sort and be able to provide some kind of comprehensive plan in place so we can at least make intelligent decisions in the future. I'll just require maybe two. And to the Bill. I, too, rise in strong support of this legislation. We continue to move forward in finding ways to provide health care to all our families. And as we continue to work on KidCare, we know that it's a very popular movement and move into family care. And these are the kind of issues that are bringing our state together, giving our citizens a lot of opportunity to feel that we are caring about their health. We've had Representative Franks pass beautiful legislation in this chamber that deals with seniors, that deals with all kind of aspects to bring prescription drug costs down. This is continues to become components of a comprehensive approach to taking care of our Illinoisans. So, I would sug... I would strongly urge an 'aye' vote. And please look at this carefully. We amended it. Many sides came together to discuss this legislation. I introduced this Bill in committee and I appreciate Mr. McKeon picking it up for us. Thank you and I hope we get a lot of 'green' votes on this one."

They have brought to this Body a great deal of information that leads to the support of this Bill. The information is information that has been gathered from a long and previous history of people having no insurance, of people being underinsured, of making people, the sickest of the sick similar to those that Representative Rutherford was talking about. This is legislation that will prevent those from having to be the sickest of the sick and going to nursing homes. I think it

Starting with Section 20 where you're gonna hold public hearings and produce a preliminary report and you've been discussing that and it sounds like in your answers that there's been a great deal of empha... emphasis on creating a plan and coming up with a proposal and a preliminary report. Is that correct?"

McKeon: "That's correct and it's a plan, not a single source like a single-payer it doesn't even mention that, it's a multitude of approaches that could be integrated together for both the private sector, public sector as well as through not-for-profit programs and other philanthropy."

Cross: "And what do we do as a Body of the General Assembly, if we don't like the plan that they come up with?"

McKeon: "They're gonna submit a preliminary report to the Governor and to the General Assembly and a final report two

years later. It is a report. It is a set of recommendations. It'll be dependent upon you, me and our colleagues, in both chambers, and the Governor to come up with some legislation that would implement that plan, if we chose to."

Cross: "I think if it was limited to that, Representative, perhaps you'd have some people with a little bit more receptive, because then we could react to that report or plan. The problem, as I see your Bill, is in Section 15 that no one's focused on this afternoon, is that it re... actually requires the implementation of the plan and it seems like we're avoiding discussing that and that concerns me because that language mandates that this plan is implemented, whether we like it or not, whether there's some concerns with it or not. And to suggest that all we're coming up with is a preliminary report, I think is... doesn't completely tell the story."

McKeon: "Well, I... I disagree in terms of your interpretation. Implementation of a plan or a planning process is a task in and of itself that does not produce the outcomes that would be involved in implicating a program. There is a difference between a plan and the implementation of a plan and the development of concrete programs, legislation, and an appropriations to it. I think you're reading, with all due respect, reading far more into that language than is really there."

Cross: "Well, let me... Maybe we ought to read it, we can read it together, so I suspect not everybody's focusing on the language. Section 15, page 2, 'on or before December 31, 2006, the State of Illinois shall implement a health care access plan that does the following' and we have ten things that have to be... that have to be mentioned or covered.

HOUSE OF REPRESENTATIVES

'Shall implement a health care access plan', that's a little further along, Larry, than a report or just a concept. It's the implementation, the carrying out of whatever reports you come up with."

McKeon: "Representative, I would agree with you. I come from a public planning background. It requires the implementation of a plan and a planning methodology. It does not call for the implementation of a program and that's a... it's a fundamental difference. It's probably could have been written a little bit clearer, but you know and I know that the outcome of this commission is not gonna have any effect unless the Governor and the General Assembly collaboratively put together a program and a budget and a dollar... the dollar signs to implement that plan."

Cross: "Why don't we and I think you've essentially just acknowledged the problem with Section 15. I would suggest that we either... I would suggest to make it a better Bill, I don't know if everyone will agree with it, you pull this Bill out, amend Section 15. I find the language, the mandate of implementation of a plan by the 6th of or by 2006, December 31, very troublesome. Meaning we're... it's gonna be tough for us to react, 'cause someone's gonna come along and say, hey, back in 2002 the General Assembly passed the Bill sponsored by Representative McKeon, House Bill 1984, that said a plan 'shall' be implemented. And I..."

McKeon: "Representative..."

Cross: "...ya acknowledged a minute ago that there were some problems with this language. I'd like to see that language removed."

McKeon: "Well, look, I will work with you and the Senate Sponsor to clarify that language. From my experience, implementing

a plan is not the same of implementing a program of action."

Cross: "Well, Representative, I suspect most people know how they're gonna vote on this Bill. I do think that we need to... those that are on the fence at this point ought to be cautious. I think this Bill goes a little bit further along than those of... on your side that have spoken in favor of it who've just suggested that it's just an idea or a concept or plan that we want to develop. We, as I've said under this Bill, actually are mandated to implement that plan and a program and I find that, as I said earlier, a bit... not a bit, quite a bit troublesome and bothersome. So, thank you for your answers."

Speaker Hartke: "Representative McKeon to close."

McKeon: "Thank you, Mr. Speaker. And I want to reiterate, this is a planning process. We're not giving to a 30-member commission the authority to develop a plan, a program to implement that plan, and the authority to appropriate the dollars to pay for it. That's not possible in this state. Only we, in the General Assembly, and the Governor can do those steps. It is a planning process. And it's far better to go through that process and try to develop a comprehensive, multifaceted, approach to the provision of health care using public and private resources than to stick our heads in the sand and do nothing about a problem that is just getting worse and worse. I urge your 'aye' vote."

Speaker Hartke: "The question is, 'Shall the House pass House Bill 1984?' All those in favor of the Bill will vote 'yes'; those opposed to the Bill will vote 'no'. The voting is open. There has been a request for a verification, so vote your own switches. Have all voted

So, I will be glad to answer any questions on House Bill 4522. But we... I've been asked to move this Bill to the Senate in order to keep the dialog open."

Speaker Hartke: "The Chair recognizes Representative Hoeft."

Hoeft: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Morrow: "Well, right now, with the... just to give you some history on this. Several years ago, when I was Chairman of Housing and Economic Development, I held some hearings on minority and female participation as far as bonding, as far as state-backed bonds and this was back in 1994. Well, the track record of minority and female participation, as far as state-backed bonds, was abysmal. We have since increased minority and female participation when it comes to bond financing by various bonding agencies that we have. Since last summer, Leader Madigan has initiated some meetings with vari... minor... with vari... various minority and female investment firms who have been locked out of the pension investment business when it comes to state pensions. And so, they've been having various meetings since last summer, as I've said, they thought they were gonna have substantive language by this time, that... since we're on a deadline. They do not have the substantive language, but in order to keep this dialog going, we're asking that the Members pass this as a shell Bill right now, so that it goes to the Senate when this... if it is the desire of the Members to pass this out to the Senate, House Bill 4522 would only be used for that one purpose."

Hoefl: "At the beginning, you were talking about funding. So, you're basically talking about minority participation in the investment, the bonding, the management of the funds?"

Morrow: "Of pension funds, that's correct."

Hoefl: "Yeah. I think that's a worthwhile goal for us because this should be funds that are equally distributed in terms of the business end of it with all the groups in the state. When you originally said it, it sounded like you wanted minorities to spend more money into the pension system."

Speaker Hartke: "Representative Mulligan."

Mulligan: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Hartke: "Sponsor will yield."

Mulligan: "Representative, when you're talking minorities are you including women?"

Morrow: "Yes."

Mulligan: "Since there are... I don't think any women or there weren't a little while ago on the pension board."

Morrow: "Pardon me, Representative Mulligan?"

Mulligan: "There were... there were no women at one point on the pension board. I don't know if that's been rectified, but it would be interesting also to inclu... I mean it could be a minority woman, for all I care, but I'd like to see a woman on there with credentials that would have something to say about... So, you are including women in this, for legislative intent?"

Speaker Hartke: "Further discussion? Representative Cross."

Cross: "Just a couple questions, quickly."

Speaker Hartke: "Sure."

Cross: "Do you think he's willing to defer to your expertise?"

Morrow: "He already has."

Cross: "Now, if we can be assured, as this Bill goes through the process, that you'll be in charge of it, direct what's gonna happen and you won't be listening to the Speaker on this Bill?"

federal funds."

disturbed when you ask our State Board of Education how a class size is determined and you hear that they throw in the librarian, special aids, the janitor, the people that prepare the food, all that goes into the calculation it seems like. Maybe it's a little facetious, but there are a number of people that go into that determination of class size and I hope that when this goes over to the Senate that you work to get an Amendment on it that really nails down the various decision on how that class size will be determined. And we make sure that we have teachers in front of the kids and not special aids and those types of people that are actually... are counted in on that. Because I look around the class sizes in my... my major school district in my current legislative district and I am told that they meet the class size standards and yet there are 30 kids to the class. And when all these other people are figured into it, well, that's when the class size gets brought down. To me, it's somewhat of a facade and I would just encourage you to look for an Amendment that will really... how many teachers in front of how many kids and calculate class size on that. I stand in support of your Bill, though."

Speaker Hartke: "Representative Wait to close."

What we're looking to do here is to provide for statute that if someone does go and videotape and try to sell for profit some type of animal torture that that would be a Class A misdemeanor."

but for purposes of legislative intent, some concern has been expressed about this Bill and I am a cosponsor and I certainly intend to vote for the Bill. However, the University of Illinois College of Veterinary Medicine has some concerns that this may be so strictly interpreted that if they do a video of a medical or surgical procedure and then make that video available possibly for sale to other colleges of veterinary medicine that someone who would argue that the medical procedure was inherently cruel to animals or the surgical procedure, may then haul them into court and charge them with a Class A misdemeanor. And I would assume that that's certainly is not your intent."

Rutherford: "Absolutely, Representative. You and I did discuss that what we wanna do is to move this on over to the Senate and at that time try to determine the proper tweaking to have it happen."

Black: "I appreciate that and we also talked about in some rural areas rodeos are still very, very popular and those aficionados of that want to make certain that a video of a rodeo event, steer wrestling, bareback riding, would not then come back and charge that rodeo promoter with an offense under this Act."

Rutherford: "Representative, that example was just recently brought to us, as well..."

Black: "Okay."

Clerk Bolin: "House Bill 5937, a Bill for an Act concerning the state budget. Third Reading of this House Bill."

Speaker Hartke: "Would you turn on Representative Slone?"

Slone: "Slone, please, yes. Thank you, Mr. Speaker, Ladies and Gentlemen. House Bill 30... 5937 actually comes out of my personal frustration with trying to read the budget. I don't know if any of you... I know many of you are... who are Members of the Appropriation Committee have... Committees have tried this exercise. It's very difficult to figure out from the budget what it is that the state is doing and the agencies are doing with the funds that we appropriate for them. The purpose of the Bill, as it was initiated, was to try and get there to be... the agencies and the Bureau of the Budget to state upfront what the objectives of various programs are and what... by what measures we would measure their performance. It turns out that the... that the Bureau and the Governor's Office is already doing quite a bit of this. So, in its amended form, what the Bill does is to ask them to continue this process and over a period of several years to put these measurements into the budget and integrate them with the budget. And I would be happy to answer any questions."

Speaker Hartke: "Is there any discussion? The Chair recognizes Representative Cross."

Cross: "Thank you, Mr. Speaker. Has there been a request for verification?"

Speaker Hartke: "Has there been..."

Cross: "Yes."

Speaker Hartke: "...on this Bill? No."

Cross: "All right. I'd like to ask the..."

Speaker Hartke: "Would you like to have one?"

Cross: "I'd like to ask the... Let me ask the Sponsor some questions."

Speaker Hartke: "Sure."

Cross: "Representative, it appears that not only is the Governor's Office opposed, the Bureau of the Budget, as well as, DCCA, Illinois Department of, I think, of Employment Security and others are opposed to this Bill. Did they testify in committee?"

Slone: "Yes. There was testimony in the committee and basically all the agencies are... were opposed to it because they felt that there was... that it was sort of none of the Legislature's business, I think, was where they were coming from on this."

Cross: "They thought what?"

Slone: "This is shorthand, it's certainly not a direct quote, but it seemed as though this was considered to be an executive prerogative and not anything that the Legislature should be involved in. I should tell you, Representative Cross, that the initial version of the Bill had the Economic and Fiscal Commission having a fairly direct role in working with the Governor's Office on creating these performance measurements. Under the Amendment to the Bill, and there was very strong objection to that by the agencies. Under the current Amendment to the Bill, Ec and Fisc no longer has a role in the process."

Cross: "Well, what's our role in the budget process, Representative? Well, and I'm serious. I mean, why... why shouldn't we be establishing some standards or objectives

or goals in performance measures? Isn't that... Aren't we elected to help do that?"

Slone: "I suppose you could make that argument. It turns out, as I say, that... that under former Comptroller Didrickson and continuing under Comptroller Hynes and also through the Governor's Office of Strategic Planning and Performance Measurement, these are functions that are now going to in the Bureau of the Budget. That a lot of this work is already being done, but it has not been incorporated into the budget and made as available to us. So, the current Amendment tries to work with what the process that's already in place and help plug it into the budget process so that we are more aware of what's being done along these lines in the agencies."

Cross: "Well, I'm reading in our... in our information or notes that the Economic and Fiscal Commission, at least, is telling us that they don't have the staff to handle this and that they'll have to hire at least three more staff people if not more. Why would we... why would we wanna incur costs to... I mean, we've got an Economic and Fiscal Commission now. We've got a Bureau of the Budget. As you say, we've have a comptroller, we have a treasurer. Can't... we've got a Legislature. We've got a Bureau of the Budget. We've got someone's that the head of the Bureau of the Budget. Can't any of those people I just named set up performance standards and goals? Why on earth do we have to create another level, another level of bureaucracy to establish performance measures?"

Slone: "We don't, Representative Cross. The Economic and Fiscal Commission's fiscal note on this was not as the Bill is currently amended. It was in its original form. As it was amended by Amendment 1 and also by Amendment 2, there would

be no fiscal impact on Ec and Fisc and they would not need to hire anybody else."

Cross: "Well, here are their comments to... see what... where they put this on, the fiscal note from the Illinois Economic and Fiscal Commission. HB 5937 will add new provisions that are out of the realm of the commission's current responsibilities that would require either additional staff or the utilization of contracting with firms specializing in the study of state programs. The commission's current staffing level's not sufficient to handle the provisions."

Slone: "I think that's probably... before the Amendments. Mr. Speaker, could we take the Bill out of the record so we can see if we're talking about the same version of the Bill, please?"

Speaker Hartke: "Take that Bill out of the record. House Bill 4466, Representative Pankau. Mr. Clerk, read the Bill."

Clerk Bolin: "House Bill 4466, a Bill for an Act in relation to education. Third Reading of this House Bill."

Speaker Hartke: "Representative Pankau."

Pankau: "Thank you, Mr. Speaker. House Bill 4466 is a response to the Corey H. lawsuit. This is a lawsuit that has virtually sent shivers up the spine of special education department's teachers and the whole way we were conducting special education in the State of Illinois. This Bill attempts to address not so much the decision in the lawsuit, but the implementation as to how we, as a state, are responding to the decision that was made. Representative Jerry Mitchell, who originally carried this and presented it in committee, I would like to yield the rest of my time to he and also to Kevin McCarthy. Speaker."

Speaker Hartke: "Representative Mitchell."

Mitchell, J.: "Thank you, Mr. Speaker. Ladies and Gentlemen of the House, this Bill passed unanimously through committee. There's another companion Bill identical that has already come from the Senate which passed unanimously through the Senate Education Committee and unanimously through the Senate. This is our answer to Judge Gettleman and the whole situation with Corey H. What has happened, basically, is that the State Board of Education has come up with two special licensing areas that basically say that if you've been trained in two areas of special education such as LD and EMH, then you can teach all areas of special education. Our special education teachers are very unhappy with this. They wanted an alternative and this is what we've come up with. Basically, what this does is allows the state board to still certify in each of the seven categories that are outlined by the federal program, IDEA, and still allow them to be a specialist in one area and not a... really, jack of all trades and master of one... none. I think this is a reasonable solution. It does not usurp Judge Gettleman's ruling. It only adds to his ruling. Whether he'll feel that way, remains to be seen. I would recommend an 'aye' vote. And be happy to answer any questions."

Speaker Hartke: "Representative McCarthy."

McCarthy: "Thank you, Mr. Chairman. I appreciate the recognition from the Chief Sponsor, Representative Pankau. And I'd just would echo what Representative Mitchell has said, that this is a great piece of legislation. It'll recognize that these people have taken special training to address special problems of the children in our schools. It's something

that I think we should all recognize. These are experts and they should be treated as experts and we shouldn't try and say that there's one solution for all different problems for the... the different problems that the school children present to the education field. So, it's a great Bill and it deserves a hundred and eighteen 'green' votes. Thank you."

Speaker Hartke: "Representative Pankau to close."

Pankau: "And with that, Mr. Speaker, Representative Mitchell, McCarthy and I stand ready to answer any questions and if there are none, I ask for a favorable vote."

I believe that this Bill really represents the future of transportation, because we already have fixed rail lines, we know about those. We have bus routes, we know about those. But this particular issue that that's being raised in this Bill, has to do with situations, in which new approaches have to be coddled together in new ways. That's when employers work with a PACE Bus System for example, to develop a shuttle service to go to a specific employer. And there are federal moneys available for that. We don't really have a structure in Illinois that would help draw down those federal moneys. And also, really create innovative programs in a joint kind of way, with all the stakeholders sitting at the table, that's what this Bill really does. We've been trying to pass it for a couple years, now. And I would hope that we will all support it."

Parke: "Thank you, Mr. Speaker. Will the Sponsor yield."

Speaker Hartke: "Sponsor will yield."

Parke: "Representative, I understand that you're trying to solve this but have you received any notification from anybody whether they're opposed of this or is there any opposition?"

Novak: "As I understand it, Mr. Parke, I have no idea of any opposition. The Illinois Energy Association that represents all the utilities is for it. The Commerce Commission has signed off on it."

Parke: "What about the Citizens Utility Board?"

Novak: "I haven't heard anything from them. I... if they we're opposed to it I'm certain I would have heard from them, Terry."

Parke: "So, you think this is really not controversies... And again, this is gonna help one particular..."

Novak: "Well, it's..."

Parke: "...school district..."

Novak: "CILCO has... it can... it potentially can..."

Parke: "I mean a power company?"

Novak: "...potentially, it can help all of the incoming utilities in Illinois. But specifically CILCO, that has to be sold pursuant to a federal agency order. Okay? They are, the new member, whoever the new buyer is going to be, there's a short list of potential purchasers. They want to have the ample flexibility and time, and in this case it's a 5-year limit on how to functionally separate. And this gives them the flexibility to do it and provided that the, their plan that they submit conforms to standards and rules that the Commerce Commission has promulgated under this functional separation rulemaking."

Parke: "How do we know that they're moving in the right

direction? Are there any reports to the Governor's Office or the General Assembly or..."

Novak: "No. Under the Deregulation Act that we passed in 1997 that took effect in 1998, we did not require the utilities in Illinois to functionally separate, or what we commonly refer to as spin off some of there assets, such as generating assets or their transmission and distribution lines. We didn't require them to do that under this Act. We gave them the opportunity to do it, pursuant to a rulemaking by the ICC, unlike the State of California that required some of their... their utilities to divest themselves."

Parke: "And who... who requested this legislation?"

Novak: "CILCO, Central Illinois Light Company."

Parke: "Thank you very much."

Novak: "You're welcome."

Speaker Hartke: "Further discussion? Seeing that no one is seeking recognition, the ques... Mr. Novak, would you like to close?"

Novak: "Yes, I just simply ask for an 'aye' vote from my colleagues, please."

Speaker Hartke: "Question is, 'Shall the House pass House Bill 5851?' All in favor signify by voting 'yes'; those opposed vote 'no'. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Mr. Clerk, take the record. On this question, there are 118 Members voting 'yes', 0 voting 'no'. And this Bill, having received a Constitutional Majority, is hereby declared passed. House Bill 4067, Representative Novak. Mr. Clerk, read the Bill."

Clerk Rossi: "House Bill 4067, a Bill for an Act concerning the conveyance of land. Third Reading of this House Bill."

Speaker Hartke: "Mr. Novak."

Novak: "Yeah, Mr. Speaker, as I understand it this... this Bill is going to be consolidated into a... an administration land transfer Bill. So, we can take this out of the record."

Speaker Hartke: "Out of the record."

Novak: "Thank you."

Speaker Hartke: "House Bill 5140, Representative Lyons. Eileen Lyons. Mr. Clerk, read the Bill."

Clerk Rossi: "House Bill 5140 has been read a second time, previously. No Committee Amendments. Floor Amendment #2, offered by Representative Eileen Lyons, has been approved for consideration."

Speaker Hartke: "Representative Lyons."

Lyons, E.: "Thank you, Mr. Speaker. Floor Amendment #2 to House Bill 5140 becomes the Bill. And it is the result of a lot of work over the last six or eight months. If you remember, last year we passed a Resolution in the House looking into how we might improve the child support system in this state. We held me... hearings throughout the state to get input. We received a lot of recommendations based on, especially the Appleseed Foundation of the City of Chicago, the Appleseed Foundation for Justice, who interviewed everybody involved with child support, from custodial parent to noncustodial parent to state's attorney to clerk to the various entities that are involved in child support. And as a result of that, they made recommendations that we have included in this legislation."

I have to say, based on their recommendations and the DuPage Federation for Human Services Reform and with the work of Representative Julie Hamos, Representative Bellock, and myself, we have come up with a Bill that I think addresses all these problems. And what I really want to stress is that according to the IDPA's official reports to the Federal Government, only 14% of the children in the 4D Program in Cook County and 20% of the 4D children in DuPage County got any money at all in the last fiscal year. This means that 80% of the parents who went to Child Support Office hoping to get help, got nothing. House Bill 5140 does provide the tools necessary to develop a more efficient, customer-friendly Child Support Services Program. By reducing the number of governmental agencies a family has to deal with providing accountability at the local level and increasing performance standards, we can make a difference in the lives of many children and fulfill our goal of insuring that every child receives the financial and emotional support of both parents."

Speaker Hartke: "Is there any discussion? Chair recognizes Representative Miller."

Miller: "Will the Sponsor yield?"

Speaker Hartke: "Sponsor will yield."

Miller: "Just... Representative Lyons, I commend you and Representative Hamos and everybody for their efforts in this. But I did receive a call from one of my constituents in regards to the possibility of them losing their job. And... and I believe they are with the Department of Public Aid. Can you elaborate on that, a little bit, for me?"

Lyons, E.: "I'd be happy to. Right now, there is an infrastructure in place and it is possible that in the transition from the department to the State's Attornies

Office that some jobs might be lost. The hope is that those jobs will be absorbed by the State's Attornies Office now that they will be delivering the local... they will have the responsibility for the local delivery of services."

Miller: "And approximately at what level of... what types of jobs are we talking about here? And what level?"

Lyons, E.: "We... we are talking about attorneys, paralegals, or somebody with special training in child support."

Miller: "And do you have any figure on how many jobs would be lost, if possible?"

Lyons, E.: "No, I do not."

Miller: "Okay. All right. Thank you."

Speaker Hartke: "Further discussion? Chair recognizes Representative Black."

Black: "Thank you very much, Mr. Speaker. Will the Sponsor yield?"

Speaker Hartke: "Sponsor will yield."

Black: "Representative, there isn't anything in this Amendment that would preclude other counties other than the two mentioned Du... Cook and DuPage from going to this self-contained disbursement unit if they choose to do so in a year from now or six months from now, whenever?"

Lyons, E.: "No, there is not."

Black: "So, in other words, the ill-advised federal mandate creating the State Disbursement Unit and all of the trials and tribulations we went through with that disaster, this simply begins a process, an orderly process, that if a county feels it can maintain that function and get checks out to custodial parents in a more efficient manner, they are free to do so, correct?"

Lyons, E.: "No, I'm not sure I agree with what you're saying."

STATE OF ILLINOIS

There is still... we still have a State Disbursement Unit in the state that complies with our federal mandate. This is separate from this... from the SDU. This is completely separate from the SDU. So, what we're doing here is allowing for DuPage and Cook Country to take on the responsibility. Their... they would, the State's Attorneys Office, the local State's Attornies Office in Cook and DuPage will take... these people on as their clients and they would be responsible, as opposed to the system now where it is fragmented and once the ball gets dropped somewhere, it gets dropped. This is a unified child support system that the State's Attorneys Office would be handling and that it would be their responsibility to see... see it throughout the case."

Black: "All right. So, but... but other counties then could choose to participate in this at a later point if they would like to do so?"

Lyons, E.: "That is correct."

Black: "Thank you very much. To the Amendment. I... I, like most people who have followed the State Disbursement Unit federal mandate, applaud the work that they put in on this Amendment. If you have had constituents as of I had who have not been able to contact the SDU because of... disconnected phone lines, 800 numbers that are always busy, people who when they finally get somebody, don't no what they're talking about, not running the system at convenient hours other than bu... business hours. This is long overdue and may bring some satisfaction to custodial parents who have been totally and completely frustrated by the federal mandate that set up an SDU, that in all due respect to those in the State of Illinois who are required to implement it, we moved forward when we were not ready.

The department refused to seek a waiver from the Federal Government and it was a disaster that I personally never, ever want to go through again. So, anything that will make the process of child support easier on all parties is long overdue and I hope everyone will vote 'aye' for the Amendment and vote 'aye' for the Bill."

Speaker Hartke: "Further discussion? Representative Lyons to close."

Lyons, E.: "Thank you, Mr. Speaker. Thank you, for those who have supported this. This is really an important piece of legislation. Currently, there is a lack of accountability to families seeking child support services. And this remedies it by allowing counties to manage a Unified Child Support Services Program. The point I would like to emphasize is that if we have an ef... effective system of child support enforcement we wouldn't need a great deal of our welfare system. I'd really believe that we cannot afford not to ensure that every child has the both... the support of both parents. And I would appreciate your 'aye' support."

Speaker Hartke: "The question is, 'Shall the House pass House Bill 5140?' All those in favor signify by voting 'yes'; those opposed... favor of the Amendment say 'aye'; opposed 'no'. In opinion of the Chair, the 'ayes' have it. And the Amendment is adopted. Further Amendments?"

On the Bills that we just moved to Third Reading, the appropriation Bills, the understanding with both sides of the aisle is that we would pass these on an Agreed Bill List. These Bills are at or below the Governor's introduced levels, they're at the Governor's introduced levels for these agencies. And that includes... we also have included a number of shell Bills because we anticipate as the process goes forward that there may be a need for those, as well. I might add, that we have, at least on our side of the aisle, I'm aware that we have analysis that were handed to everyone as they come in, came in today. Those are available and you will be given an opportunity as we always do on an Agreed Bill List to cast a 'no', vote if you feel that is appropriate. Auction License Act, was passed in 1999 and it became effective in January 1st of 2000. The intent of the original Act was to license and regulate traditional auctioneers. An Amendment was placed on the original House Bill in 1999 in the Senate which included Internet auctions as a licensed activity. The Office of Banks of Real Estate implemented that Act in the year of 2000. The Internet auction listing services such as eBay, Yahoo, Amazon utilize an entirely different business model and business practices than do traditional auctioneers. The Internet auctions do not physically handle, see, or provide descriptions of the property listed on their sites. Those descriptions and the exchange of the property is done by the buyers and sellers who utilize their websites. These services do not normally handle the proceeds from the auctions conducted over their sites. The exchange of the property and moneys are handled by the parties to the transaction. The regulatory provisions of the original Auction License Act do not fit the Internet auction business and would be unduly burdensome to the Internet auction industry. eBay has offered this Amendment which I'm sponsoring and has worked with Office of Banks and Real Estate, the Illinois State Auctioneers Association, and the Illinois Association of Relators on this Amendment. This language establishes within the Auction License Act a separate and distinctive regulatory structure for Internet auction listing services and only applies to personal property. This... this Amendment does not apply to the offer... offering of real property. If real property is offered they must be licensed under the Real Estate Act. It does provide that any Internet auction listing service such as eBay must register with the Office of Banks and

Real Estate along with a reasonable administrative fee established by the rule... by rule if the service, the users of the service, or the personal property being offered is located in the State of Illinois. It provides that these Internet auction services must collect and maintain for 2 years the name, address, phone number, and e-mail address for any person who buys or sells or... over their website. It provides that these Internet auction services must remove the listing of any seller or buyer that fraudulently represent... misrepresents any property on their website. It provides that these Internet auctions services must fully cooperate with Office of Banks and Real Estate and law enforcement to provide information concerning those buyers and sellers who act in a fraudulent manner on their website. It also provides that the Office of Banks and Real Estate may revoke, suspend, or impose a civil penalty up to \$10 thousand dollars against the registrant for violating these pro... provisions. This Amendment is brought forward and supported by eBay and their attorneys, including former Attorney General Neil Hartigan. It is believed by the many attorneys that have worked on this that this Amendment will meet Constitutional scrutiny, including jurisdictional issues and commerce clause issues. Be happy to try and answer any questions you might have."

Fritchey: "I would agree fully."

Speaker Hartke: "Mr. Black, the parliamentarian will... discuss that issue."

Parliamentarian Uhe: "Representative Black, as usual I agree with your interpretation. And the record should reflect that no action was taken in committee on House Amendment 3."

Black: "So, what... does that mean as for action on Amendment 3? Does it have to be released from the Rules Committee and would be then acted on separately? Or can it be acted on as part of the underlying Bill?"

Black: "Thank you very much, Mr. Speaker. Will the Sponsor yield?"

Speaker Hartke: "Sponsor will yield."

Black: "Representative, I appreciate your indulgence yesterday in taking this out of the record. And now that we are focused on the Amendment having to do with, I think, retail credit cards, the only item of confusion that I have has to do with the logo that might appear on the credit card. If the credit card were to be issued by a retailer, the ABC Company, but the actual... but the credit card itself is... all of the transactions, billing, recordkeeping, is handled in fact by a bank. Is that information, under this Amendment, is that information available to the consumer so that the consumer knows he may in fact be dealing with Citibank or Bank of America, rather than the retail company that he thinks he's dealing with? He may walk into a retail store with their affinity credit card, but in effect... but in fact the interest rates, the payment schedules, inquiries that the consumer may make, may very well have to be directed to a bank and not the retailer."

Schoenberg: "That's correct."

Black: "So, that's basically what this is all about, getting that..."

Schoenberg: "That's... that's correct. What this is really all about is ensuring that the retailers that issue the credit cards under their brand name of their store, whether it's Home Depot, Sears, Kohls, Bergner's, Carsons, whatever,

that they can freely exchange the information with the financial institution that they issue those cards under. Under both Federal and State Law, I do believe, what the situation that you just outlined, people would be made... that information would be made clear to the consumers that they would need to address any of their concerns to the financial institution."

Black: "Okay."

Schoenberg: "And similarly, this would continue to protect the customer's privacy over their own customer information as they currently enjoy under State and Federal Law."

Black: "Okay. Fine. Thank you very much."

Speaker Hartke: "Representative Myers."

Myers: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. I bring before you, for your consideration, House Bill 5873. This Bill is an initiative of a judge in Fulton County and the state's attorney in Fulton County who feel that sexually dangerous persons when they appeal or when they apply for recovery and are denied appeal that they can appeal frivolously and immediately the next day. All this does is allow the courts to set some time parameters in which appeals can be made. The person may file an application showing recovery after six months have elapsed since the initial commitment order was entered, the most recent order showing recovery was denied, or the most recent order for conditional release was revoked. This does change the requirements that upon initial appeal or application for appeal that an evidentiary hearing has to be filed with the court and orders go out to the Department of Corrections. This does allow more flexibility with the court itself. Would be glad to answer any questions."

Speaker Hartke: "Is there any discussion. The Chair recognizes Representative Moffitt."

Moffitt: "Thank you, Mr. Speaker. I just rise in support of this. This was a county that is near my district and now is in Representative Myers' district. This would actually save counties money, would empower the courts and I think is in the best interests of all of our citizens. Myers: "One moment, Representative Dart. Representative Dart, I don't know if the Attorney General's Office has been consulted in this. Our analysis doesn't indicate that they have. We are under the impression that the State's Attornies' Association were supportive of this measure."

Dart: "Okay. But... And that probably would alleviate any concerns. If you get an opportunity after this passes over to the Senate, if you could just check with them because I've done some extensive work over the last couple of years with the Attorney General's Office on this general topic and we've been working against a Supreme Court case to make sure we don't go afoul of it, in all the different changes we've made in this Act and other Acts like it. If you could just check with 'em, 'cause I just don't want to upset anything, because the Supreme Court has been talking about this topic quite a bit and it's been a very delicate balance of 5 to 4 decisions. And I just wanna make sure that we don't do anything that would upset the appplecart. So, if you get an opportunity, can you just check with them to make sure that this complies with any concerns that they may have?"

Myers: "Sure can. Thank you..."

Dart: "Thank you."

Myers: "...very much for the suggestion. I appreciate that."

Dart: "Thank you very much."

I'm looking at our analysis, Representative Myers, and it basically says that a person who is committed as a sexually dangerous person any time after six months could ask to have his recovery, I guess, certified and then would he be released from whatever commitment he was put into?"

Myers: "I'm sorry, Representative McCarthy, I didn't completely understand your question."

McCarthy: "The person is committed and deemed a sexually dangerous person. And you're saying any time after six months after that he can asked to be reevaluated. Is that correct?"

Myers: "If he shows evidence of recovery. There has to be some afida... affidavit or some evidence that somebody has analyzed him within the system, the correctional system, and provided evidence that he has proven recovery."

McCarthy: "In the Bill, does it say anything about the qualifications of the person who would have to certify that?"

Myers: "The report shall be prepared by the psychiatrist, sociologist, psychologist and warden of, or assigned to, the institution where the applicant is confined."

McCarthy: "Okay. The second parameter you put in was, 'after the most recent order showing recovery was denied' and that seems to say that if a person asks for this recovery and he was denied at any time after that he could ask again. I mean, couldn't this be very cumbersome that he could keep asking again and again and again."

Myers: "No..."

McCarthy: "It seems that that guarantees him the right to ask for that."

Myers: "Representative McCarthy, what this says is that they may appeal... they may apply after six months have elapsed since the most recent order showing recovery was denied. There has to be a six month elapsed period of time between any of those occurrences."

McCarthy: "So, the six months is not only from the initial commitment, it's from any time there's a denial."

Myers: "That's correct. The other one was... the other qualification was or that the recent order for conditional release was revoked. There are occasions where the individual is released on a conditional release and has violated what in essence is a parole and he has to wait six months after his parole or his conditional release has been revoked before he can reapply again."

McCarthy: "Well, thank you. I was reading off our analysis. I appreciate the answers to those questions."

Speaker Brunsvold: "Third Reading. Read the Bill Mr. Clerk."

Clerk Rossi: "House Bill 5935, a Bill for an Act in relation to criminal law. Third Reading of this House Bill."

Speaker Brunsvold: "Mr. McAuliffe."

McAuliffe: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. House Bill 5935 would provide that in addition to any other penalty imposed a fine of \$500 shall be imposed upon a person who is convicted of arson, residential arson or aggravated arson. This money would be deposited in so the local fire departments would be able to use this money as they deemed appropriate. And I'd be happy to answer any questions."

Speaker Brunsvold: "The Gentleman's asked for a passage of House Bill 5935. Is there any discussion? Seeing none, the question is, 'Shall House Bill 5935 pass?' All in favor vote 'aye'; opposed vote 'nay'. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Have all voted who wish? Mr. Clerk, take the record. And on that question, 117 voting 'yes', 0 voting 'no', 1 voting 'present'. And this Bill, having received a Constitutional Majority, is hereby declared passed. Mr. Clerk, read House Bill 5937."

Clerk Rossi: "House Bill 5937, a Bill for an Act concerning the state budget. Third Reading of this House Bill."

Speaker Brunsvold: "Representative Slone."

Slone: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. This is a Bill that I began to present earlier. It is a Bill that would require... that would codify a process that's already going on whereby the Comptroller and the Bureau of the Budget and the state agencies are working on developing performance measures for various state programs

and working to ensure public accountability for the expenditures that we have in our budget. What the Bill would require is that they continue and expand this process and that by fiscal 2007 that the budget reflect the program objectives and performance measures that show how well the state agencies are doing in meeting their objectives with the taxpayers' dollars. I would appreciate your support."

Speaker Brunsvold: "The Lady's asked for a passage. On that question, the Gentleman from Vermilion, Mr. Black."

Black: "Thank you very much, Mr. Speaker. Would you have the carpenter check my chair when he gets a minute? Will the Sponsor yield?"

Speaker Brunsvold: "Sponsor yields."

Black: "Representative, this is an interesting Bill, but it's about as clear as the Mississippi River at high flood. What exactly do you want these agencies to do? I mean, if you're... if you're saying zero-based budgeting or Generally Accepted Accounting Principles, then I have some idea of where you were headed. What exactly are you asking these agencies to do?"

Slone: "There's a set of new standards called the Government Accounting Standard... developed by the Government Accounting Standards Board and that is the... that is the program under which Illinois, starting with Comptroller Loleta Didrickson, started developing these performance measures and they have continued to do that under Comptroller Hynes and with the various state agencies. My understanding is that quite a number of agencies are already doing this and they have developed program goals and performance measures for a number of their programs. This would simply codify the process that's already going on and encourages expansion and closing the loop, in

effect, by putting it into the budget process."

Black: "Could you... could you point out in the Bill where Generally Accepted Accounting Principles or any of the items that we would understand as budget guidelines or principles that have been adopted. I don't see that in the Bill anywhere."

Slone: "I... The Government Accounting Standards Board is not the same thing as gov... Generally Accepted Accounting Principles and those are not in this Bill. It just requests that the performance measures that are currently being developed and are already developed in a number... for a number of programs be codified."

Black: "What... How would you define, in the Bill... let's just look at page... page 3, I believe. Yeah, page 3, line 22. 'Development of program objectives and performance measures.' Is that defined anywhere in the Bill?"

Slone: "Page 3, line 22, Mr. Black?"

Black: "Yes. Where it says Section 6.5, 'development of program objectives and performance measures for state programs.' Is there any definition of 'program objectives' or 'performance measures' anywhere in the Bill?"

Slone: "I don't believe so, Mr. Black. They're to use the ones that they're already using. We're trying to give the agencies and the Governor's Office and the Comptroller as much flexibility to continue what they're doing as we possibly can."

Black: "Well, all right, Representative. Thank you very much for answering the questions. Mr. Speaker, to the Bill."

Speaker Brunsvold: "Proceed."

Black: "If the Bill had some specificity to it in that we were going to go to zero-based budgeting or any specific definitional terms that would be readily available and

understood by the accounting community or most of us on the floor and clearly delineate where we were headed, I might have a different opinion on this Bill. But the Bill simply says, you are going to create some, let me quote, I don't want to... I don't want to misquote... misspeak here. If we'll go back to the Bill, on page 3, if I can get the thing to separate, I hurt my hand just a second ago. Yes. We're going to develop program objectives and performance measures. Well, that... I've been around accountants a long, long time and that means absolutely nothing to me. It might mean something to the Sponsor and I'm sure it does. I know she's well-intentioned by this Bill. But given the fiscal realities and the fact that Economic and Fiscal Commission believes that this will necessitate their hiring many more staffers to handle the increased workload to develop some vague terminology, I just... I'm not sure that the... that the means will be met. I think we can spend a lot of money and spend a lot of time to create a program objective, but that doesn't define anything. I'm not sure we'd be any better off after the hours of work and thousands of dollars spent on additional staff to create program objectives. If we want to go to zero-based budgeting or any number of Generally Accepted Accounting Principles that some states have already adopted and clearly spell that out and say by a time certain this is the standard we will use, at least that gives us a definitive road map for us to follow. The Bill, in its current form, give us no road map. It says by 2007 we want to be here, but nowhere in this Bill do I see any direction on how we're going to get here. And when you... my experience, in all due respect to those who work for the state or any local unit or any unit of government, my

STATE OF ILLINOIS

HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

experience when you give a bureaucrat that kind of a map and you say in five years I want you to be here, but you don't tell them how to get there, they end up going all over the place and creating more work and hiring more bureaucrats and then five years down the road they tell ya, we ain't there yet. Well, they won't be there because they don't know from this Bill where they're supposed to be or how to get there. So, I don't think this Bill, while the Sponsor is well-intentioned I'm sure, this Bill is so vague, so muddy, so unclear, that all we're gonna do is spend a lot of money and five years from now we're gonna have somebody come to this chamber and say, we tried real hard, but we didn't get there. I think the Sponsor would be better off going back, revising the Bill, outlining specific accounting principles she wants the state to adopt by a date certain, and let's work on that. This is a very open-ended, unclear, not concise, no road map, no direction kind of Bill that, in my opinion and my years down here, will only result in the expenditure of more money and the waste of more hours and not accomplish a doggone thing. And for that reason, I intend to vote 'no'."

Speaker Brunsvold: "The Gentleman from Cook, Mr. Schoenberg."

Schoenberg: "Thank you. With all due respect to the tirade of the previous speaker, I'd like to refer him to exhibit 'A' which is the Comptroller's annual financial report for the fiscal year ended June 30, 2001. It's an extract of the Comptroller's public accountability project which Representative Slone is accurately referring to as being a coordinated effort with the Governor's Office of Strategic Planning. So, my friends, contrary to the statements of the prior speaker and as this book can attest, for many of the state agencies that currently serve us, this measures

what state agencies are doing on a programmatic basis, not on a line item basis. So, for example, if you were to turn to any of the agencies in this book... and I have to tell you, by the way, that not all agencies participated in this. For example, you don't see any reference to the Illinois Toll Highway Authority, but you wouldn't expect them to do anything in the way of public accountability anyway, so that's not to be expected. And besides, on any given day, we can't quite ascertain what their mission is or what they want to spend the toll money on, all we would know, is that they want to take it. But if you were to turn to any of the agencies, what this book... what this project essentially does is define the mission statement for the individual programs in the agency and the goals and objectives. So, contrary to the prior speaker, we don't have to reinvent the wheel, the wheel is already furnished. If anything, the Lady's Bill will make certain that those agencies, perhaps some of them need to be held more accountable than others, who decline to participate that they participate so we have an absolute certainty as to how we're getting maximum efficiency out of our tax dollars. Now, I'll add one final note in support of the Lady's Bill, which I'm proud to be a cosponsor of, and that is contrary to the protests of the prior speaker this is not an original concept. In fact, several of us on this side of the aisle, sponsored or cosponsored this measure when it was first initiated by Republican Comptroller Loleta Didrickson. We're now working on the third Comptroller, we've had one Republican and two Democrats now who have tried to bring this project to fruition. We're not starting something new, my friends, we're just finishing the job and for that reason, you should support the Lady's

Bill. Thank you."

Speaker Brunsvold: "Further discussion? The Lady from Cook, Representative Hamos. She does not wish to speak. The Lady from Cook, Representative Wojcik."

Wojcik: "I'd like to yield my time to Representative Black."

Speaker Brunsvold: "Mr. Black, would you like to speak further?"

Black: "Well, let me just say... the previous speaker, if you wanna hold up some book and say it's in the Bill, show me where it says it in the Bill. All right? Go on, the hour grows late and the silliness is out of control. If there's anything in that Bill that is a specific accounting principle that gives a guideline or direction for somebody to follow, then come and show me where it is in the Bill. Don't hand up some book from some political officeholder and tell me it's gonna solve all the problems of the state. It's an insult to my intelligence and I don't appreciate the Gentleman holding up a book... If he wants to give me a copy of the book, tell him to come over here and give me a copy of the book. I'll help him read it."

Speaker Brunsvold: "The Lady from Peoria, Representative Slone to close."

Slone: "Thank you, Mr. Speaker. The purpose of the Bill is to give us, as Legislators and the taxpayers, better information so that we can do the very best we can with the taxpayers' money and that... what's going to help us do that is the type of reporting that this Bill would call for. It's something the Comptroller's Office and the Governor's Office and the Bureau of the Budget and the agencies are already working on and I would appreciate your 'aye' votes. Thank you."

Speaker Brunsvold: "The question is, 'Shall House Bill 5937 pass?' All in favor vote 'aye'; opposed vote 'no'. The

Speaker Brunsvold: "Mr. Black."

Black: "Thank you very much, Mr. Speaker, and Ladies and Gentlemen of the House. As you know, I spend a great deal of time in the Cook County. And this is an initiative of the State's Attorney of Cook County and he had a Sponsor on the Bill who had reached his priority limit, so they asked if I would take it and I'm proud to do so for the previous Sponsor of the Bill, a Gentleman by the name of Mr. Madigan. This Bill reenacts a provision of the Juvenile Court Act that addresses the period for commencing a civil adjudicatory hearing in abuse, neglect, and dependency cases. The reason this Bill is before us, the Supreme Court ruled this particular part of the law

Black: "Mr. Speaker, I was under the impression we were going to get new chairs at some point. Obviously, I have a defective chair. If Tim Johnson were still here, you would be named in the lawsuit, I'll assure you of that."

Speaker Brunsvold: "I was about to ask why Mr. Black rises and falls and rises and falls."

Black: "At my age, I'm not going there, Mr. Speaker."

Speaker Brunsvold: "I'm right with you, Mr. Black. Mr. Clerk, House Bill 4588. The Chair is prepared to adjourn. Is there any announcements? Mr. Clerk, committee announcements."
